721730LEKIT

Class 2 Self-Retracting Lifeline Kit

The FT-R+ revolutionizes SRL technology as the first field-repairable ANSI Class 2 SRL, enabling quick, efficient on-site repairs to minimize downtime. Supporting up to 420 pounds, it delivers exceptional safety and durability for demanding job sites.

This next-generation SRL delivers:

On-Site Repairability:

The FT-R+ allows damaged cables to be replaced directly on-site, reducing downtime and eliminating costly off-site repairs.

Fast Lifeline Replacement:

Featuring FallTech's SpeedLine system, the FT-R+ ensures quick and efficient cable replacement with tools included in every kit.

Uncompromising Safety:

Equipped with LineLoc™ a locking cylinder for safe and easy cable separation and securing.

AXIS™ Ready:

Integrated with AXIS, a cutting-edge fall safety calculator for precise fall clearance calculations on mobile or desktop devices.

Each FT-R+ Includes Everything You Need for Lifeline Replacement
