Global Industrial™ Deck Mounted Sensor Faucet With Mixing Valve, 2.2 GPM, Chrome

★★★★★ (0)

In Stock, Ships in 3-4 days

Product Description

Connect the Global Industrial™ Deck Mounted Sensor Faucet to a compatible sink and you have an ideal washing station for your facility. Perfect for any commercial, educational, or industrial working space where hand washing gets done without touching faucet handles. Chrome-plated, brass faucet delivers a flowing volume of 2.2 GPM with a max temperature of 175°F. This lead free and ADA compliant, deck mounted faucet allows hands-free activation and stops once users have withdrawn from 15 cm sensor range. Functions with an above deck mixer, which provides precise water temperature. LED indicator provides

notification when battery power is low. 1 minute time-out setting. Integrated stainless steel supply lines with 3/8" connections. Requires 115V outlet or four AA batteries (sold separately). 1 Year Limited Warranty.
