Backordered, expected around 01/08/2027

Product Description

✓ Complete starter kit with uprights, 5 shelves, & hardware
✓ Steel shelf decks are strong, smooth, and resilient
✓ 2750 lbs. per shelf maximum payload capacity

The 72"W x 24"D x 84"H Global Industrial™ 5-Shelf Extra-Heavy-Duty Boltless Shelving Starter is designed to maximize storage in retail, commercial, office, and industrial applications. The open design of the shelves enables four-sided access & visibility that

makes inventory control easier and promotes airflow. The four shelves have strong & durable steel decking that push the maximum payload capacity to 2750 lbs per shelf while providing a stable base for irregularly-shaped items, bagged goods, and small items that can slip through wire decking.

The whole unit is easy to set-up with tool-free snap-in components that don't require nuts, bolts, or clips. It is made with sturdy roll-formed steel framing for maximum support and double rivet button studs that lock the perimeter beams into the corner posts to form a structurally-secure joint that eliminates back & side sway. Limited 1-Year Warranty.

- Shelves adjust at 1-1/2" increments without tools
- Gray chip-resistant baked enamel finish
- 2-1/4" x 1-1/2" 14 ga steel uprights
- Assembly required
