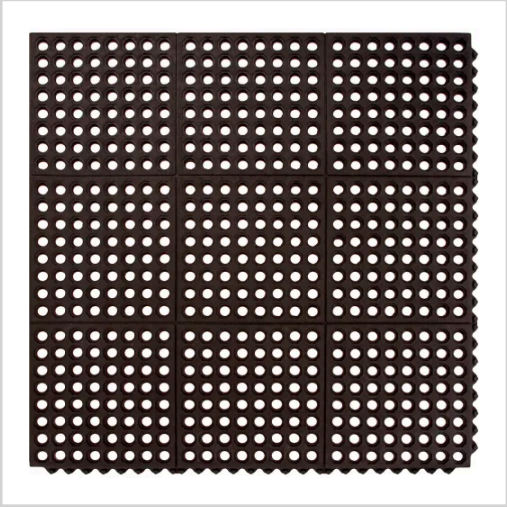
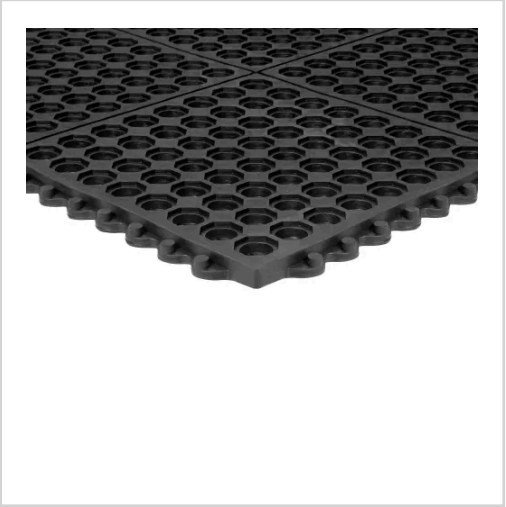
Global Industrial™ Interlocking Drainage Mat, 3'W x 3'L, 5/8" Thick, Black

★★★★★ (0)





Ships Same Day

Product Description

✓ Connects to similar safety mats to create custom platform areas
✓ SBR rubber offers strong resistance to water and abrasion
✓ Suitable for indoor/outdoor spaces

Protect floor foundations and maintain safe, high-traction at a variety of workspaces with the Global Industrial™ 3x3 Interlocking Mat. This adaptable 5/8" thick, slip-resistant drain mat

connects and disconnects to like-models to create customized standing platforms. Lightweight, flexible, and made of thick rubber construction to withstand water, moisture, boric acid, and ethylene glycol around workshops, kitchens, warehouses, and many other work environments. Significant 5/8" thickness helps to reduce fatigue from prolonged standing. Nonreversible. Grit surface. Rubber material is SBR (Styrene-Butadiene Rubber). 1-Year Limited Warranty.
