Model: WBB844231

Stanley Bostitch® B8 PowerCrown™ Staples, 30 Sheet Capacity, 1/4" Leg Length, 5000/Box

★★★★★ (1)

Ships within 1 Business Day

Product Description

B8 PowerCrown staples are crafted for ultimate drive performance and designed for use in Bostitch B8E, B8E-Value, B8HC, B8HDP, B8R, B8P (02245), B8RC-FC, B8RC-2G, B8RC, and B8RCB. As this crowned (peaked) staple top is flattened during the staple drive, it forces the staple legs outward so they are more fully supported by the stapler magazine throughout the drive. This delivers more stapling force and reduced buckling for maximum penetration. Staples are constructed from superior quality, high carbon wire to reduce buckling and jamming. The finely honed chisel points deliver maximum penetration for maximum sheet capacity with a 1/4" leg length.
