Model: WBB2100476

Machine Screw, M3 x 0.5 x 6mm, Phillips Pan Head, Class 4.8, Steel, Zinc, DIN 7985A, Pack of 1000

★★★★★ (0)

Ships Same Day

Product Description

Machine Screws feature straight shank fasteners with external threads designed to go through a hole or nut that is pre-tapped to form a mating thread for the screw. Fasteners are durably constructed of steel for long lasting reliability and strength.
