Global Industrial™ Teardrop Pallet Rack Backstop, 96" Length, 0" Offset

★★★★★ (0)

In Stock, Ships in 3-4 days

Product Description

✓ Easy installation with no hardware required
✓ Piston lock at each end
✓ Prevents pallets from being pushed too far within rack system

The Global Industrial™ Teardrop Pallet Rack Backstop will prevent the pallet and load from being loaded or pushed too far within the pallet rack system. The backstops are a single piece that does not require any type of hardware and are fastened directly to Global

Industrial™ Pallet Rack Uprights with a piston-lock end at each end. Reconfiguration is as simple as disengaging the piston locks and relocating the pallet stop. To be installed 12" from the top of the support load beams. 1-Year Limited Warranty.
