Product Description

GLOBAL™ FLAMMABLE CABINETS With Forkliftable Legs
Global™ 60 Gallon Capacity - Self Close Doors
These Flammable Safety Cabinets meet or exceed the NFPA Flammable Liquid Code #30 and the OSHA standard 1910.106 for storage of class I, II and III liquids. FM approved. The **all welded double wall 18 gauge steel** of these flammable storage cabinets offer superior fire protection. Double-walled doors feature 14 gauge steel outside and 18 gauge interior.

Vented flammable cabinets feature 1-1/2" insulating air space and dual 2" flame arrestor air vents that connect to exhaust system to maintain safe temperatures. Includes built-in grounding connector. Galvanized steel shelves with **350 lb. capacity shelves** adjust easily on 2-1/2" centers. 4"H legs allow floor anchoring for stability and 2-way forklift access for transport.

Self Close Double Doors automatically close only when fusible link melts at 165°F. Doors feature 2" leakproof sill to contain spills, self latching mechanism that engages the 3 point locking without handle rotation and a highly visible trilingual warning. Doors also include two **4" hinges with sturdy brass hinge pins** and a flush, paddle handle design that protects passersby from accidental catching or banging. Flammable cabinets are finished with yellow powder coat and feature radius edges for safety. **10 Year Limited Warranty.**
