Available on or around 12/13/2026

Product Description

Proto® JSCV14F Black Chrome Combination Locking Flex-Head Ratcheting Wrench 7/16" - Spline

Features:

- 15° angled offset helps keep shank clear of obstructions
- Chrome-vanadium box ends and switch levers provide high strength and durability
- Box end is countersunk for easy application to the fastener

- Spline design was created for use with specialty spline bolts which are used when weight and size of bolt heads must be minimized
- Spline design enables the wrench to contact conventional fasteners away from the corners, which applies force over a larger area, reducing risk of fastener scoring and helps prevent rounding of the corners and other fasteners damage that could lead to Foreign Object Damage (FOD)
- The high contact surface area which is away from fastener points enables turning of highly rounded fastener
- Anti-Slip Design (ASD) open end
- Black chrome finish is corrosion resistant and visually distinctive
- 72 tooth ratcheting mechanism rotates fast with only 5 degrees of swing
- Spline wrenches can be used on 4, 6, 12 point, spline and Torx® fasteners

Specifications

Weights & Dimensions

Length	5-9/16 in
Weight	0.2 lbs
Size	7/16 in
Opening Size	7/16 in

Product Details

Type	Combination Wrench
Measuring System	SAE (Fractional)
Color	Black
Opening Type	Open/Box
Socket/Wrench Points	12
Impact Approved	No
Flip Switch Reversible	Yes
Material	Alloy Steel
Description	Black Chrome Combination Locking Flex-Head Ratcheting Wrench 7/16"

Ratcheting	Yes
Manufacturers Part Number	JSCV14F
Brand	Proto
