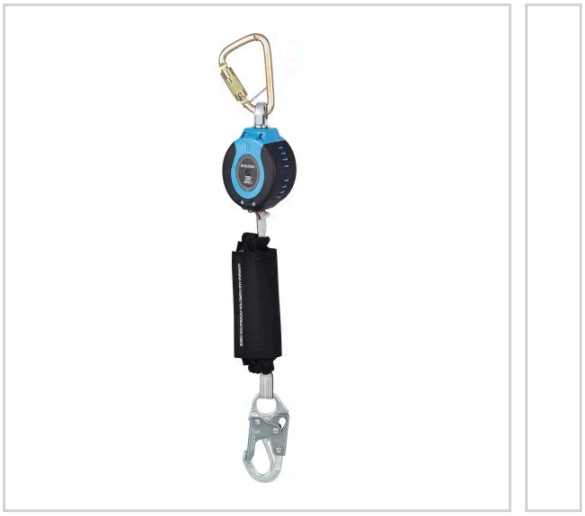
Global Industrial™ 9'L Personal Self Retracting Lifeline, Dyneema Web

★★★★★ (0)



Ships Same Day

Product Description

✓ Dyneema® web lifeline
✓ Internal braking system and external energy absorber
✓ External energy absorber features ViewPack® cover with inspection window

Provide your employees with the trusted strength of Dyneema® with the Global Industrial™ 9' L Personal Self Retracting Lifeline. Internal brakes plus the external energy absorber help

to deliver the maximum weight capacity while the Dyneema® web lifeline resists abrasion ensuring long-lasting use. The over-molded glass-filled nylon housing contributes unmatched impact resistance. The integrated aluminum alloy swivel-eye helps to prevent lifeline twisting for smooth operation. The lifeline features an alloy steel snap-hook anchorage connector, a user-supplied dorsal connector, and an alloy steel dorsal connecting carabiner. May be anchored up to 5-feet below the dorsal D-ring for users weighing up to 425-pounds with OSHA-only compliance. ANSI Z359.14-2014 compliant. 1-Year Limited Warranty.

- We've partnered with FallTech® to bring you the best in safety protection for you and your business.
