# Global Industrial™ 4-Tier 4 Door Digital Wood Locker, 12"W x 15"D x 76"H, Gray, Assembled

★★★★★ (0)

Available on or around 12/18/2026

## Product Description

✓ Electronic vertical keypad lock
✓ Carb II-compliant particleboard covered in durable laminate
✓ Durable and moisture-resistant steel base

Elevate the look & feel of your locker room or changing room with this fully assembled 4-tier/4-door Global Industrial™ Digital Wood Locker. Wood lockers give any space a natural

warmth that presents a more comfortable and welcoming tone than standard metal lockers plus they are also quieter when they close. The body of the locker is made of 0.70" (18mm) thick Carb II-compliant particleboard covered in a durable high-pressure laminate with heavy-duty concealed steel hinges, and a digital electronic keypad. This vertical keypad lock is easily programmable and can be used in either Public mode for single-use passcodes or Private mode for longer-term individual use.
What separates this Global Industrial wood locker from the competition is the durable, moisture-resistant steel base. Typical wood lockers carry the wood to the base, which can warp, peel, or buckle when exposed to persistent moisture such as gym or club locker rooms and spas. The steel base on this locker is designed to deliver elegant performance with a long service life. This version comes fully assembled in a gray color.

- Includes one battery and one master key per lock
- Door edges are banded with PVC banding
- Locker doors are 12.0" wide x 0.70" deep
- Blank steel ID plates included for customization
- Optional color-matched gray end panel, #290630 available separately, to present a finished look
- Ideal for use in: Clubhouses & country clubs, spas & resorts, fitness centers & gyms, executive suites
