Ships within 1 Business Day

Product Description

Built on Ingersoll Rand's 100 year legacy developing industry leading tools, you can always rely on the 36QMAX. This stubby impact wrench has been rigorously tested and pushed to the limits to make sure it lasts twice as long as the competition so you can get REAL WORK done time and time again.

Features:

- Built on the Ingersoll Rand Impactool™ legacy with a twin hammer design and composite housing, the 36QMAX is built to last twice as long as the competition.

- Delivering 450 ft-lbs. of max reverse torque at only 2.4 pounds, no other compact impact wrench on the market can match the combined power and light weight of the 36QMAX. With less added weight, you can power through those tough stretches of work in no time.
- The stubby 4.6Ë length and compact design help do work you never even dreamed of reaching. The improved ergonomics give you total control to get up, under, over, or around any tough job.
- The one-handed forward/reverse push button and 3-mode power regulator give you max control, so you never do more work than you have to. It features 3 different regulation settings (in forward) on its easy to operate power regulator dial.
