Global Industrial™ 6'L Energy Absorbing Lanyard, Snap Hooks

★★★★★ (0)

Ships Same Day

Product Description

✓ Tubular polyester webbing
✓ Full-length internal energy absorber and visual fall indicator
✓ Alloy steel snap hook for harness attachment and rebar hook

We provide high quality compliance at an economical price with the Global Industrial™ 6'L Energy Absorbing Lanyard. Designed to reduce the force imposed on the user, this

lanyard's high-modulus internal elastic effortlessly expands and contracts with each movement and retains its elasticity longer than woven materials. It includes alloy steel snap hooks for harness attachment and anchorage connections. A full-length internal energy absorber delivers flexible low-profile user comfort compared to traditional pack-style lanyards. The elastic leg construction helps to reduce tripping hazards, while its durable tubular polyester webbing resists abrasion and UV degradation for long-lasting use. Its rebar hook features transverse load rated gate. ANSI Z359.11-2021, CSA Z259.10-2018, OSHA 1926.502, OSHA 1910.140 compliant. 1-Year Limited Warranty.

- We've partnered with FallTech® to bring you the best in safety protection for you and your business.
