EXCLUSIVE BRANDS NEW PRODUCT

Global Industrial™ Steel Lift-Out Guard Rail Kit, Light Duty, 6'L, Yellow

★★★★★ (0)

Preorder, expected around 01/12/2027

Product Description

✓ Includes lift-out guard rail, end post, and mounting hardware for a complete guard rail system with convenient temporary access
✓ Impact capacity of 5,000 lbs. at 4 MPH
✓ Durable 11-gauge steel construction with high-visibility yellow powder-coated finish

The Global Industrial™ Steel Lift-Out Guard Rail Kit is an effective, modular barrier solution

designed to help protect personnel, machinery, equipment, and facility infrastructure from impacts caused by forklifts, pallet trucks, and other material handling vehicles. Featuring durable steel guard rails and end posts, this system combines reliable protection with convenient access through its lift-out/drop-in rail design.

Constructed from heavy-duty 11-gauge steel, the guard rail system is engineered to withstand impacts of up to 5,000 lbs. at 4 MPH. Rails easily slide into the post-mounted brackets, allowing for quick installation and simple removal when temporary access is required for equipment movement, maintenance, or pedestrian traffic control. The OSHA safety yellow powder-coated finish provides excellent visibility to help enhance workplace safety.

The included end posts are designed to neatly terminate a guard rail run and feature welded rail brackets for secure installation. Each post includes a top cap to help prevent the accumulation of snow, water, debris, and refuse, along with a heavy-duty mounting plate for secure anchoring to concrete or asphalt surfaces using the included hardware.

- Complete light-duty lift-out guard rail system for impact protection and access control
- Heavy-duty 11-gauge steel construction for long-lasting durability
- Impact rating of 5,000 lbs. at 4 MPH
- Lift-out/drop-in rail design allows quick removal and replacement of rails
- Ideal for protecting machinery, equipment, work areas, and pedestrian pathways
- Bright OSHA safety yellow powder-coated finish for enhanced visibility
- Welded rail brackets provide fast and secure rail installation
- End posts terminate guard rail runs for a clean, finished appearance
- Includes top caps to help keep out snow, water, debris, and refuse
- 8" x 8" mounting plates with pre-drilled anchor holes
- Mounting hardware included for installation on concrete or asphalt surfaces
- Modular system can be expanded using compatible in-line and corner posts
- Limited 1-Year Warranty

Specifications

Weights & Dimensions

Length	110-1/2 in
Height	42 in
Weight	107 lbs

Gauge	11 ga
Nominal Length	6 ft

Product Details

Assembly Required	Yes
Type	Light Duty Guard Rail System
Color	Yellow
Hardware Included	Yes
Finish Type	Powder Coat
Finish	Powder Coated
Material	Steel
Manufacturers Part Number	B3184238
Impact Capacity	5,000 @ 4 MPH
Mounting Style	Lift Out
Component Style	Light Duty Guard Rails & Posts
Brand	Global Industrial

Warranty

Warranty	1 yr
