Global Industrial™ 6 Shelf, Standard Duty Boltless Shelving, Add On, 48"W x 18"D x 60"H, Duradeck

★★★★★ (0)

Backordered, expected around 03/20/2027

Product Description

✓ Double rivet beams on every level for added support and stability
✓ Assembles easily without the use of nuts, bolts, or clips
✓ Connects to a coordinating starter unit for additional storage space

The 48"W x 18"D x 60"H Global Industrial™ Standard-Duty Boltless Shelving Add On Unit is a practical, space-saving solution for expanding your existing storage system. It connects easily to standard-duty boltless starter kits, using a T-post configuration to create a

continuous shelving system across multiple units. Made from durable roll-formed steel with a chip-resistant gray enamel finish, this 6-shelf unit features a boltless design for quick, hassle-free assembly and provides four-sided access to stored items for maximum flexibility. Its heavy-duty frame includes 14-gauge steel uprights punched on 1½" centers and double-riveted horizontal beams at every level that adjust in 1½" increments to accommodate a variety of storage needs. The double rivet button stud construction securely locks perimeter beams into the corner posts, forming a stable joint that helps eliminate back and side sway. Each adjustable shelf is fitted with Duradeck decking, a smooth, non-porous surface that wipes clean easily, making it ideal for healthcare and food service applications.

- Pre-sized panels for seamless installation
- Ideal for any industry where cleanliness is essential
- Decking wipes clean easily
- Open design allows four-sided access to stored items for maximum flexibility
- Shelves are adjustable at 1 ½" increments
- Supports up to 800 lbs. per level when evenly distributed
