

Model BLG

Barrier Grabs

Product Features:

- Compact and rugged to handle concrete barriers from 6" to 12" nominal width at the top of the barrier
- Stainless steel Auto Latch mount ensures proper alignment
- Locating assembly orientates tong on barrier without operator intervention
- Gripping polyurethane pads (replaceable) conform with and protect the load
- Replaceable polyurethane pads protect barrier
- Alloy steel dog point pads bite into painted barrier surfaces (typical in coastal areas)
- Centering guide cut out on grab shoe helps to properly center tong over barrier for a level lift
- Extended handles on each side keep operator away from load and can be adjusted as needed
- Lifting eye allows for easy hook attachment, self-centers rigging, and will accommodate a fork
- Designed and manufactured to ASME B30.20, BTH-1, design category B, service class 3

PRODUCT OPERATION

Place tong on barrier, lower crane completely to disengage the Auto-Latch.

Lift and position barrier in desired location.

Lower crane, line must go slack to engage Auto-Latch, lift tong off barrier and repeat!

OPTIONAL BARRIER GRAB REST PAD

Option Features:

- Bolt in place for easy field installation and replacement
- Protects barrier from damage caused by the grab, increasing barrier life

OPTIONAL STABILIZING KIT

Option Features:

- Attach two Barrier Grabs to a beam and expand your barrier handling capabilities
- Handles barriers up to 40' in length
- Beams can be used for other material handling applications when Barrier Grabs are removed

Each Stabilizing Kit Consists of:*

1 - Model 20 Lifting Beam

1 - Set of attaching hardware

*Barrier Grabs Sold Separately
