Global Industrial™ Steel Safety Bollard W/Removable Base and Cap, 5.5"D x 48"H

★★★★★ (9)

Ships Same Day

Product Description

✓ Removable plastic cap allows concrete to be filled inside for extra reinforcement.
✓ Chain slots help connect to similar bollards to help form a more established barrier.
✓ Floor mountable and includes removable base.

Provide equipment protection and designate where vehicles cannot enter with The Global Industrial™ Steel Bollard. Topped with a removable plastic cap, the bollard can be filled with

concrete for reinforcement. The top features chain slots that allow steel chains (sold separately) to pass through openings and create a barrier. This bollard is ideal for protecting doorways, corners, and industrial equipment. All welded steel construction. Safety yellow powder coat finish provides strong visibility.

- Height: 48".
- Base Thickness: 3/8".
- Moderate weight allows easy floor mounting.
