★★★★★ (0)

Ships in 3 Business Days

Product Description

Electrician Splicer Scissors are manufactured for exceptional performance. They are designed for heavy-duty use in telecommunications and electrical wiring jobs. Cutting blades are heat treated and ice-tempered for a longer lasting edge. Features convenient notches on the outside of the blade for stripping wires. Preferred by professionals for their consistent quality.

Features:

- Cutting blades measure 2 in
- Blade is serrated to minimize slipping when cutting wire

- Upper blade has notches for stripping 19 and 23 Gauge wire
- Designed for heavy-duty telecom and electrical applications
- Overall length measures 5.25 in
- Blade can be sharpened
- Strong, tempered steel construction
- Cuts Kevlar and fiber optics
- Each pair is hand assembled to ensure optimum cutting
- Available with patented ergo grip
