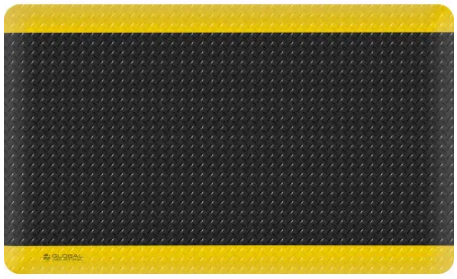
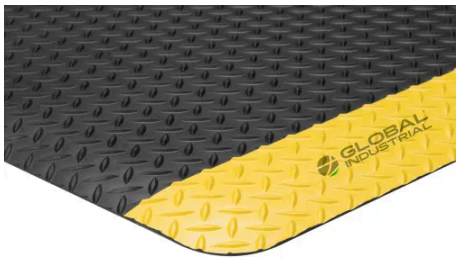
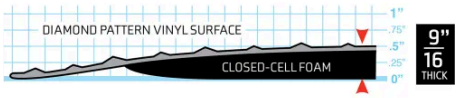
Global Industrial™ Diamond-Plate Anti Fatigue Mat, 9/16" Thick, 2'W x 10'L, Black/Yellow Border

★★★★★ (2)







Ships Same Day

Product Description

✓ Chemical-resistant vinyl with diamond-tread plate surface
✓ Thick PVC sponge base helps reduce foot, back & knee fatigue
✓ Bright yellow border for maximum safety awareness

The Global Industrial™ Diamond Plate Ergonomic Mat can be used to improve comfort & productivity by helping to reduce fatigue and strain on worker's back, hips, legs, knees, and

feet. This industrial antifatigue mat is made of chemical-resistant 100% recycled vinyl with a durable slip-resistant embossed diamond-tread plate top that is surface-bonded to a 15/16"-thick buoyant foam base to provide a soft and supportive surface for walking or standing employees. Beveled edges and a bright yellow border help eliminate tripping hazards to improve safety. For use in dry work areas.
