Global Industrial™ IBC Spill Containment Pallet with Drain, 365 Gallon

★★★★★ (0)

Ships within 1 Business Day

Product Description

✓ 365-gallon capacity and 8000 lb. weight capacity
✓ Low-profile, forklift-accessible design for easy transportation
✓ Includes drain for easy emptying of the sump in case of spill

Standing 30" tall, the Global Industrial™ IBC Spill Containment Pallet with Drain is designed to carry an IBC tote with the ability to contain unexpected leaks & spills. Ideal for use in

warehouses, storerooms, and many other large facilities that require a reliable and versatile pallet for IBC shipping or storage. Made of resilient bright yellow high-density polyethylene, the body can hold up to 365-gallons of water and harsh or caustic liquids & oils weighing up to 8000-pounds. Meets SPCC, EPA Container Storage Regulation 40 CFR 264.175. No assembly required. Limited 1-Year Warranty.

- 4-way forklift access for ease of transportation
- Large 3/4" drain outlet with plug to safely drain spills
- Removeable 2-piece poly grating for easy cleaning
- Measures 66"W x 66"D x 30"H
