✓ Durable and adaptable storage for retail industrial and commercial spaces
✓ Open shelves are adjustable at 1 ½" increments
✓ Easy assembly-no bolts, nuts, or clips required

Global Industrial 3 Shelf, Heavy Duty Boltless Shelving Add On with Wood Deckinghas

horizontal beams that are roll-formed to a Z-profile for added shelf capacity. The wood decking sits flush to beams for a neater appearance and increased stability. Various heights, widths, and depths accommodate nearly every area of your facility. For use in retail, commercial, and industrial applications. Open design allows four side access providing maximum flexibility.

Easy set-up with snap-in components. No nuts, bolts, or clips required. Make expansion easy and join units with more stability and less construction than bolting 2 starter units together. Sturdy roll-formed steel framing provides maximum support. Double Rivet button stud construction locks perimeter beams into corner post forming a structurally secure joint, eliminating back and side sway. Each add on unit includes rugged 14 ga steel T Posts that are punched on 1 ½" centers and double riveted horizontal Z beams that adjust vertically on 1 ½" increments. Chip resistant Gray baked enamel finish.
