Model: WB290410L

Honeywell RU8500 Half Mask Blue, Large, Speech Diaphragm And Diverter Exhalation Valve Cover

★★★★★ (0)

In Stock, Ships in 3-4 days

Product Description

Improve productivity and maintain compliance with the Honeywell North RU8500 Series half mask.

The RU8500 is one of the only reusable half masks on the market with a speech diaphragm. This feature offers improved speech clarity – eliminating the need for workers to leave the work space or doff the mask in order to communicate. Made from soft, flexible silicone, the RU8500 provides workers with a comfortable fit for hours of use while the dual sealing flange provides an excellent facepiece seal.

The RU8500 also has the unique option of a diverter exhalation valve cover, which directs exhaled breath downward and is ideal for painting/coating/sealing.

Available in royal blue, light green and lilac.

Specifications

Weights & Dimensions

Size	Large
