BORN TENACIOUS.

Four score and seven (minus fifty-two) years ago, we humbly brought forth upon the seven continents a new strategy for safety, conceived in tenacity and dedicated to the proposition that all workers are created equal and must be protected. And since that seminal day, we've been deeply committed to going well beyond compliance; for we know that compliance is just table stakes.

From the day we planted our flag, we've been unwaveringly committed to not making or selling cheap stuff. We simply won't do adequate or satisfactory – ever. We believe those options are both offensive and wasteful – and we see it as our sacred quest to deliver what safety professionals and workers prefer, specify and desire: intelligently designed, well-crafted and fairly priced safety solutions that ensure, when the whistle blows, every worker heads home safe, sound and happy.

Our thirty-five revolutions around this ball of gas have hardly gone silky smooth. We've had our share of bumps and bruises, close calls and mistakes, to be sure. We carry these battle scars as badges of honor. Bottom line: We got up, dusted ourselves off, listened, learned and evolved. Forging ahead with our mind on our mission and our mission on our mind. Rededicating ourselves to this noble cause, keeping our moral compass pointed due north toward Making the Workplace a Betterplace™. This fuels our fire, and drives us day in and day out, year after year, decade after decade.

Could we take a long, wistful glance backwards to savor our triumphs and laugh at our tribulations? Perhaps. But then we might take our eyes off the prize and miss the next thirty-five years of doing right by the hard-working men and women we have dedicated our lives to protecting and serving. And so, on we will go, bow pointed toward the second star on the right and straight on till morning.

If you've been here with us so far, you know the drill; we are grateful and thank you. If you're new to the journey, welcome, jump in and join us. While we don't have a crystal ball up our tuchus, we can promise you this — it's gonna be one helluva ride.

2052, here we come. **Tally-ho.**

PPE: PROTECTION. PREVENTION. ELEMENTS.

THREE PRODUCT PILLARS, ONE PURPOSE.
MAKE THE WORKPLACE A BETTERPLACE.™

Is there anything sadder than Thanksgiving dinner with no gravy? Maybe the '85 Bears without William “Refrigerator” Perry? Or Cheers without Mayday Malone? Point is, harmony is only achieved when all the parts fit together. Remove a piece and you’re left eating dry turkey, my friend. It's in this spirit of harmoniousness that we endeavor to provide you with a sweet song of PPE. These are the three pillars of safety upon which our Tenacious Work Gear is built. Remove one pillar and the entire edifice would come crashing down which, you know, would be bad. We strive to provide Protection, promote Prevention, and help you manage the Elements you face daily in fields, mines, oceans, deserts and roadways. We’ve put these interconnected safety pillars together to form a more perfect union and guarantee that you’ll be covered from every angle no matter what your bailiwick may be. You can trust that our years of expertise, drive and innovation, combined with leading-edge technology, will guide you to peak PPE performance. Let’s Make the Workplace a Betterplace™.

HOW DO WE DO IT?

YOU AND THE ERGO WORKBOOK.
A LESSON IN USAGE.

We can't tell you how to do the dab. Or how to beat Stage 3 on American Ninja Warrior. Where did Richard Simmons go? Haven't the foggiest. And who thought Lou Reed and Metallica made a good pairing? No clue. But we can tell you how to navigate the wondrous pages you hold before you. Features, benefits, model numbers. There's a lot to get through. Before you go any further, take a glance at the guide and you'll have all the answers you need. And if you're more of a 1 and 0's type, check out our website for all things social-centric, downloadable and otherwise digital. Enjoy.

MODEL NUMBER

If we remember correctly, it goes Kingdom, Phylum, Class, Family, Order, Genus, Model Number. Right?

TECH TAGS

Sure, it looks cool. But what does it do? Use our handy tech tag icons and wonder no more.

// PATENT PENDING

PATENT DESIGNATOR

Thomas Edison had 1,093 of these bad boys. We're hot on his tail.

ERGODYNE IN PRINT:

Here's the long and short of Ergo info presentation in the beloved workbook. Learn it. Live it. Love it.

ORDER MULTIPLE

You're ordering by the case, my friend. Check here for case quantities and minimum order requirements.

PRODUCT NAME

What's in a name? How about trust, reliability, quality, integrity, accountability, notoriety, recognition? Must we go on?

PRODUCT PHOTO

Our gear is ready for its close-up, Mr. DeMille. And we've made sure to get its good side.

SPECIAL SHOUT-OUTS

If a product meets the requirements of ANSI, ASTM, or any other industry standard, we'll display those badges as proudly as a Boy Scout.

FEATURES & BENEFITS

If it can withstand the freeze, block out the sun, or lay golden eggs, we'll let you know about it.

ITEM NUMBERS

Item Numbers – the universal language. Use these to speak our native tongue and get exactly what you need.

ERGODYNE IN THE FIELD:

What good is a product that doesn't go out and get up? Our Tenacious Testers™ are real-world users that evaluate our gear and tell us how they really feel. Look for these sidebars throughout the workbook.

OFFICIAL PRODUCT REVIEW

unscripted • unbiased • unabashed

TESTER: TRAVIS BURKE

PRODUCT: 922CR CUT-RESISTANT NITRILE-DIPPED

“Nitrile-dipped palms maintained grip even when wet from grease and oil.”

ONE WORD REVIEW: GRIP

THE TENACIOUS NATION NEEDS YOU. ENLIST NOW.

Wanna join the corps? We call 'em Tenacious Testers™. Our exclusive field-testing program specifically designed for those who are grinding it out in the trenches each day (desk jockeys and merchandise slingers need not apply). If accepted into our elite and limited tenacious ranks you'll receive product to test – but this ain't no free lunch. Learn more at Ergo.Zone/TTenlist

ERGODYNE IN PIXELS:

AC/DC, Lithium Ion ... however your device is powered, know that it longs to use that energy on the Ergo website. Full product info, Tester reviews, video content. It's all here. Oh yes it is. Enjoy.

VISIT OUR WELL-OILED WEBSITE

Faster than ever and constantly being optimized, even a troglodyte can navigate our super-slick responsive-design website on any device. On www.ergodyne.com, you can get the full scoop on all our Tenacious Work Gear®, sign up to attend training or win our latest giveaway, and so much more. It's such a comfortable user experience, we're seeing more traffic than the L.I.E. on a summer Friday.

TECH TAGS PERFORMANCE AND REGULATORY TAGS

The ancient Egyptians communicated via an intricate system of pictograms known as hieroglyphics. With this system, they wrote histories, conquered many lands, and completed the ultimate pyramid scheme. All while walking sideways! Consider our tech tag system a humble nod to those sun-worshipping ancients. Check the key for all the performance and regulatory characteristics of our Tenacious Work Gear®.

SCHOOLWORK WE CAN GET BEHIND.

ALL THIS KNOWLEDGE CAN'T BE CONTAINED IN FOUR WALLS.
WE'RE HITTING THE ROAD WITH OUR TAILGATE TALKS™.

Sick of launching NO. 2s into the drop ceiling? Bored of trying to perfect your Van Halen logo doodles? Done obsessing over whether Ashley likes you or LIKE likes you? Yeah, we get it. The drudgery of the classroom isn't for everyone.

Well then, have we got something for you! We're traversing North America's highways and byways to deliver on-site Tailgate Talks™ about heat stress, at-heights safety and more. And if there's room, our Tenacious Assault Vehicle is ready to rumble onto your jobsite for an exemplary educational exhibit that will thrill the senses and dazzle the mind – all to eliminate whatever knowledge gaps may be keeping your crew from peak safety performance. And afterwards – if everyone's been good – PIZZA PARTY!

TENACIOUS UNIVERSITY:

When it comes to training, we aren't a one-trick pony. We supply a full offering to get you and your workers up to speed on a safer way to work. Contact us at training@ergodyne.com to get your own edumakation on the books.

A FRESH COAT OF 'AW YEAH!'

ON THE SALES FLOOR, CLAIM THE SPACE, CONQUER THE BATTLEFIELD!

Is your Doobie Brothers poster sun-bleached? Has the shag carpet lost its luster? Sounds like it's time to spruce up the joint. And we're not talking pine tree air fresheners and new throw pillows. We mean a full-on Orange-ification of the premises in the form of Ergodyne merchandisers. Standees, signage, specialty cases. All new corrugated show room features? You name it. We've got the goods to accompany all of our fine merchandise and get it flying out your doors. So get on the horn and place your orders. Operators are standing by...

PROFLEX® GLOVES

It's a heavyweight bout and the gloves are off! You know, metaphorically speaking. Vying for the title, we have the wrath and wreckage of gnashing machines, bone-rattling vibration and Mother Nature's fury vs. durable, hi-tech, and versatile ProFlex® Gloves. ProFlex® weighs in with Armortex®, AX Suede™, OutDry® and 3M™ Thinsulate™ and provides options like cut resistance, dorsal protection and thermal insulation. These babies aren't exactly lightweights. Whose corner would you rather be in?

TASTE THE RAINBOW: COLOR-CODED FUNCTIONALITY

All ProFlex® Gloves are designed to perform and built to last. But sometimes, the job requires that little extra somethin' to help handle your specific hazard. Technical adds like + Touch Screen and + Cut Resistance are found across the line with a color-coded system to show you the way.

ORIGINAL
MODELS

The tried and true originals. Whether standard or heavy-duty, you know you're getting the latest in design, materials, and technology. Look for orange accents and know you've got the best of the basics.

+HI-DEX

It's all about control and feel. A super-thin palm, 50% thinner in fact, provides maximum dexterity while maintaining abrasion resistance and durability. Look for yellow accents when no job is too small.

+TOUCHSCREEN

In today's workplace, the touchscreen device has become another tool of the trade. Touchscreen-capable palms and fingertips allow you swipe, tap, and type while staying protected. Look for green accents and you're money ... Silicon Valley money.

+CUT
RESISTANCE

When sharp edges and cut hazards crank up the intensity level, so do ProFlex® Gloves. Glove palms featuring state-of-the-art materials like Armortex® provide protection in the toughest applications. Look for red accents for no red accidents.

+GENUINE
LEATHER

Want a softer, natural feel without sacrificing protection? ProFlex® Gloves with genuine leather reinforcements deliver all the features of their Original Model counterparts but with supple genuine leather reinforcements. Look for tan accents for an old-school look that still packs a punch.

+THERMAL

Because work doesn't stop when the temperature drops, there's ProFlex® Thermal Gloves. With or without waterproof tech, in black or hi-vis and even a flip-top mitten option, look for blue accents so your winters don't have to be, well...blue.

LABELING 101: THE HANDBOOK ON HAND PROTECTION

EN388: 2016

All Proflex® Gloves are tested to EN 388, measuring and scoring four “mechanical risks”: abrasion, cut, tear and puncture. Gloves engineered to provide enhanced cut protection are also tested to cut-resistant standards ISO 13997 and ANSI/ASTM F2992. Select Dorsal-Impact Reducing Series Gloves meet the impact protection criteria of EN 388. Select Vibration-Reducing Series Gloves meet ISO 10819/ANSI S2.73, the global standard for anti-vibration. All this info can be found on the interior label of our gloves.

Confused? Read on!

EN388
X P

- Abrasion Resistance (0-4)
- Blade Cut Resistance (0-5)
- Tear Resistance (0-4)
- Puncture Resistance (0-4)
- ISO Cut Resistance (A-I; X = Not tested)
- Impact Protection (P = PASS)

ANS 105-2016I // ASTM F2992-2015

ANSI/ASTM Cut Protection is noted as: **ANSI/ASTM CUT LEVEL A#**
(Levels A1-A9)

ISO 10819:2013 / ANSI S.2.73-2014

Compliance with the ISO 10819:2013 Vibration-Reducing standard is noted as: **ISO 10819:2013 ANSI S.2.73-2014**

HAVS IT YOUR WAY

AND REDUCE THE RISK
OF HAND-ARM VIBRATION
SYNDROME

Certain models in Ergodyne's Anti-Vibration Series meet the strict requirements of ISO 10819-2013/ ANSI S2.73-2014, the global standard for anti-vibration gloves that serves as the last line of defense in the fight against HAVS. Choose from three different models with AVC™ (Advanced Vibration Control) Technology in the palm to suit your vibration situation.

9002
ANSI/ISO-CERTIFIED
FULL-FINGER
ANTI-VIBRATION GLOVES

There's nothing basic about this base model. Full-length AVC™ Padding reduces harmful vibration from tools and equipment while the gripping palm provides a secure hold on handles and controls. Glove up and go.

9012
ANSI/ISO-CERTIFIED
ANTI-VIBRATION GLOVES
+ WRIST SUPPORT

Vibrating tools are often heavy and the tasks they tackle can cause repetitive motion strain. Talk about double trouble. Featuring a built-in wrist support with patented Open-Center Stay™ to go with an AVC™ Palm, the 9012 offers maximum protection and support.

9015F(x)
ANSI/ISO-CERTIFIED
ANTI-VIBRATION GLOVES
+ DIR PROTECTION

From jackhammers to Jack's hammer, sometimes vibration on the palm also comes with hazards to the backside (of the hand). Molded TPR armor on the 9015F(x) protects the dorsal area from flying debris and impacts as AVC™ Padding does its AV duty.

PROFLEX®
KNEE PADS

PROFLEX® KNEE PADS

With all due respect to Starship, YOU built this city. And you didn't build it on rock and roll either. More like just rock, not to mention unforgiving concrete and crushed gravel. Next time, why not treat your knees to ProFlex® Knee and Kneeling Pads? No, we're not playing any corporate games here. You can be confident that we're focused on keeping your joints in good working order. And with two gel options, a host of cap designs, and four kneeling sizes to choose from, you know nothing's gonna stop us now.

PATENTED OPEN-CENTER STAY™
Unlike traditional stay configurations positioned directly over the carpal tunnel, our stay is uniquely designed with an open center to reduce pressure on the median nerve. With a contoured design that follows the wrist's natural shape, the patented, molded stay offers greater worker comfort and compliance.

LET IT SHINE, LET IT
SHINE, LET IT SHINE.

GLOWEAR®
HI-VIS APPAREL

GLOWEAR® HI-VIS APPAREL

Hank Williams saw it. There was an entire Electric Orchestra named after it. Manfred Mann was blinded by it (and "Wrapped up like a doofus" if we heard it right). There's just something about the light. Get your shine on with GloWear® Hi-Vis Apparel and see what all the fuss is about. ANSI-compliant, sometimes flame-resistant, and always available in a variety of garment types, designs and sizes, you'll never hide under a bushel basket again.

ANSI'S GENERAL THEORY OF CONSPICUITY

MUCH KNOWLEDGE IS CONTAINED IN A SIMPLE EQUATION: 2 + E = 3!

You can obtain Class 3 compliance in one of two ways. The most obvious is to buy an ANSI 107 Class 3 compliant garment. The less obvious—but more popular route—is to wear a Class 2 garment (usually a vest) and pair it with Class E compliant bottoms. Either way, you are clearly high-class.

MAKE IT CUSTOM!

HERE'S THE DRILL:
CUSTOM LOGO PROGRAM

PRODUCT AVAILABLE

CUSTOM LOGGING

Because we have so many options and styles of products available to custom logo, we can do almost anything.

YOU GIVE US:

- Suitable digital art files or camera-ready artwork. (EPS-format files work best but large, hi-res TIF or JPG files [300+ dpi] work too.)
- All necessary PMS/Pantone colors.
- Approval of a digital mock-up.

WE GIVE YOU: A product with a look all your own.

Minimums vary based on the type of product. Don't worry, it's low.

Call Ergodyne Customer Support today to answer all your custom logo questions ... we'll make it easy for you to look good!

MAKE IT CUSTOM!

HERE'S THE DRILL:
CUSTOM LOGO PROGRAM

Because we have so many options and styles of products available to custom logo, we can do almost anything.

YOU GIVE US:

- Suitable digital art files or camera-ready artwork. (EPS-format files work best but large, hi-res TIF or JPG files [300+ dpi] work too.)

- All necessary PMS/Pantone colors.

- Approval of a digital mock-up.

WE GIVE YOU: A product with a look all your own.

Minimums vary based on the type of product. Don't worry, it's low.

Call Ergodyne Customer Support today to answer all your custom logo questions ... we'll make it easy for you to look good!

SKULLERZ®
EYE PROTECTION

SKULLERZ® EYE PROTECTION

Triple threat? Happens every day, usually before lunch. Triple compliance? Certainly not your ordinary eye protection. Norse God-named, full- or half-framed, our sweet Skullerz® Safety Glasses have your back from workday to weekend and everywhere in-between – with ANSI compliance across the board, MIL-PRF ballistic impact protection that comes standard, and CSA compliance on a full six models. Each one boasts UV protection, scratch resistance, lightweight frames, and a host of condition-specific lenses. With options for inherent, permanent Fog-Off™ anti-fog technology or polarized premium lenses to reduce glare, you now have eye protection that works as hard as you do. Your move, James Brown.

SKULLERZ® HEAD PROTECTION

You wear a yarmulke to a bar mitzvah. You wear a fedora to go clubbing in Miami. You wear a bowler to ... sorry, do people still wear bowlers? If you want to get through a shift without putting a dent in your melon, you wear Skullerz® Head Protection. The models are brimming with different, well, brims, plus hi-vis colors, hands-free LED lighting, and a brand-new insert built to turn that trusty ball cap into a piece of PPE. It's a no-brainer: Skullerz® are what you need to safeguard your dome.

ARSENAL
» GEAR AND TOOL STORAGE

FOUR SIMPLE STEPS TO SAFER WORK.
OBJECTS AT HEIGHTS

PLAN YOUR WORK. WORK YOUR PLAN.

TRAPPING

Trapping refers to retrofitting a connection point onto a tool for a safer attachment point. Most tools do not come with a secure attachment point built into the tool. In these situations, a secure attachment point must be created.

ONE-STEP
TOOL TRAPS

TWO-STEP
TOOL TRAPS

TETHERING

Once all tools have an attachment point, the appropriate tethering solution can be selected. Consider the following factors to select the appropriate solution: Weight of tool, type of connector(s) on lanyard, clearance, reach and snag hazard.

SHOCK-ABSORBING
ELASTIC LANYARDS

SPECIALTY
LANYARDS

TOPPING

There are different ways of transporting equipment to heights and a variety of containers used to store the equipment while in transit. Regardless of which container is used, there are three critical best practices: Hands-free climbing, closed container and weight rating.

SQUIDS®
LANYARDS

SQUIDS® LANYARDS

You can drop a call, the beat or the ball. You can do a drop step, drop kick or drop shot. Drop out, drop trough, drop us a line. But we won't stand idly by while you drop a wrench, hammer or tape measure. So, we present to you our Squids® Lanyards. We've got a war chest full of gravity-defying dropped objects prevention solutions ready to help you get a grip and get to work.

SQUIDS® LANYARDS:

THE ANATOMY OF AT HEIGHTS SAFETY.

MAY THE FORCE NOT BE WITH YOU...

Ergodyne Squids® Tool Lanyards are scientifically engineered to reduce drop forces and prevent workers from being pulled down when they drop an object. When you choose an Ergodyne lanyard, you're choosing superior materials and performance developed and tested (hundreds of times) to be the best – hands down. As you can see, the results speak for themselves. Don't believe us? Visit www.ergodyne.com and click the WATCH tab to see this drop test with your own eyes. No smoke and mirrors here.

OURS ARE BETTER. PERIOD.

**TETHERING SOLUTIONS:
PUTTING THE KIT TOGETHER.**

If more than three decades in the industry has taught us anything, it's that convenience is king when it comes to safety measures. With that in mind, we've put together six popular "ready-to-go" tethering kits for common job site tools. They're designed to be easy to choose and easy to use, so you have no excuse to be too legit to kit. You don't have to be Pythagoras to do the math either: Tool + Tail/Trap + Tether = a tailor-made solution to help you slow gravity's roll. Throw them in your topped container and you've crossed all your T's.

OFFICIAL PRODUCT REVIEW

TENACIOUS TESTER™

APPROVED

unscripted • unbiased • unabashed

TESTER: JASON ZUFELT

PRODUCT: 5743-PLASTIC BOTTOM BUCKET

“If you lower or raise tools over anyone on the job, this bucket is just what you need.”

ONE WORD REVIEW: DURABLE

EQUIPMENT TRANSPORTATION 101: THE DO’S AND DON’TS OF DROPS

RISKS

Risks associated with poor equipment transportation

SPRAINS OR STRAINS
Many times, workers try to bring all their tools and equipment to heights in case they need something they don’t anticipate. This can lead to them overloading themselves while climbing, taking a toll on the body.

FATIGUE / EXHAUSTION
That toll may not lead to a muscle pull or strain, but trying to carry too much up during a long climb on a hot day could stress the body in other ways. Stress or exertion – coupled with extreme conditions like heat – can be dangerous.

FALLING OBJECT / STRUCK-BY
Improperly carrying equipment to heights like holding tools in your hands or slipping them into your pocket or not securing them when hoisting can easily lead to those objects taking a tumble below.

FALLS TO LOWER LEVEL
Too much weight on a worker can drag them down, not having a lifting plan in place for hoisting can swing a load into someone, or not storing equipment in an organized fashion while at height can lead to trip hazards all causing a potential slip, trip or fall.

BEST PRACTICES

Equipment transportation best practices to mitigate those risks.

- // **NEVER CARRY OBJECTS IN YOUR POCKETS**
- // **ALWAYS MAINTAIN THREE POINTS OF CONTACT (NEVER CARRY A CONTAINER IN YOUR HAND)**
- // **LIMIT THE WEIGHT ON A WORKER’S BODY (HOIST, IF POSSIBLE)**
- // **USE CONTAINERS WITH SECURE TOPS AND/OR TETHERING ANCHOR POINTS**
- // **USE MECHANICAL ADVANTAGE TO HOIST, IF POSSIBLE**
- // **HAVE A LIFT PLAN IN PLACE — REGARDLESS OF IF A CRANE IS BEING USED**

CERTIFIED EQUIPMENT

There are hundreds of bags, buckets, pouches and holsters out there, but your standard five-gallon pail ain’t gonna cut it up there. Portable containers that are hoisted and stationary containers that are carried should be rated.

STATIC TESTING Portable and stationary containers should be statically pulled or loaded with a 5:1 safety factor.

INVERTED STATIC TESTING Containers designed to carry contents that cannot be tethered should have a top or closure that is tested upside down to a 2:1 safety factor.

DYNAMIC TESTING Containers should have drop testing done as well including attachment points meant to anchor lanyards.

CHILL-ITS® COOLING PRODUCTS

Our Chill-Its® Cooling Products are cold as ice and you better believe they're willing to sacrifice for your comfort. These babies aren't just a speed bump on the Highway to Hell, either. They're designed to give heat-related illness the cold shoulder and keep your mercury levels just the way you want them. Vests, bandanas, hydration packs and more. If it cools you down, we're ready to order it up.

CHILL-ITS® COOLING:

THE ANATOMY OF CHILL FACTOR X.

FOUR DIFFERENT TECHNOLOGIES.
ONE PURPOSE: KOOLIN' THE GANG.

DRY EVAPORATIVE TECHNOLOGY:

THE (RE)BIRTH OF COOL.

Three to 20 ounces of water provides up to three days of cool. Just pour in water, evenly distribute and ... ahhhh. 100% dry, lightweight cooling relief. With our exclusive dry evaporative technology, workers find their chill without getting bogged down (and it's machine-washable to boot!)

PVA COOLING TOWEL (CT):

CALL IT COOL. JUST DON'T CALL IT A CHAMOIS.

An innovative, hyper-evaporative material, Poly Vinyl Acetal (PVA) retains water while remaining dry to the touch for sweet cooling relief on the most sweltering of days. Flat Earth Society-approved.

MICROFIBER COOLING TOWEL (MF):

SWEET COOLING RELIEF FOR YOUR INNER GREENIE.

Our chemical-free, non-toxic, cooling powerhouse. Microfiber technology activates instantly when wet, whether that be from water or perspiration, and wicks moisture away from the body. Soft and absorbent when dry. Provides sustained cooling for hours on end when wet.

ACRYLIC POLYMER CRYSTALS:

THEY PLUMP WHEN YOU CHILL 'EM!

When soaked in cold water, these non-toxic, super-absorbent acrylic polymers expand and absorb just enough water to create a Love Potion No. 9 sensation for up to four hours. But if that sweet cooling sensation lasts more than four hours, please consult your physician. ☺

DRY EVAPORATIVE
TECHNOLOGY EXPLAINED...

HOW DOES THE 6685 DRY EVAPORATIVE TECHNOLOGY WORK? To activate the vest, open the back cap and fill with 16oz - 20oz (400ML - 600ML) of fresh water. Distribute the water evenly from the back to the front of the vest. The vest's technology gradually releases water through evaporation to keep you cool, dry, and comfortable.

HOW COOL WILL THE VEST GET? Depending on outside temperature and humidity, the vest will cool up to 15 degrees below the ambient temperature. High humidity of 60-80% may reduce its cooling ability.

WHAT CAN I EXPECT FROM THE 6685 DRY EVAPORATIVE COOLING VEST? The cooling effect is based on the principles of evaporation. A lower humidity and a high airflow mean a better cooling performance. Please familiarize yourself with the local humidity and environment to better predict performance.

After wearing the vest for a period of time, the body will adapt to the cooler temperature. The vest may no longer feel as cool, however the vest is still cooling. You can compare this to swimming in a pool. In the beginning, the water feels cool. But after awhile, the body adjusts to the water temperature though cooling is still happening.

HOW MUCH WATER IS NEEDED? Enough water to saturate the membrane on the inside of the vest. Excess water can be drained through the cap, if desired. Depending on size, 16oz - 20oz (400ML - 600ML) of fresh water is needed to activate the vest.

HOW LONG DOES THE COOLING EFFECT LAST? Cooling effect can last up to three days.

HOW TIGHT SHOULD THE GARMENT FIT? A close fit will help you feel the cooling effect. We recommend a lightweight T-shirt underneath.

CAN THE GARMENT BE WORN UNDERNEATH OTHER GARMENTS? Yes it can, but the vest needs enough airflow to be able to evaporate the water. For example, a mesh vest will provide enough airflow for the vest to function properly, while a heavy coverall would not.

DO I NEED TO CLEAN THE INSIDE OF THE VEST? No, the membrane on the inside of the vest is treated with an antimicrobial treatment that will prevent bacteria, fungi, and other contaminations. We recommend keeping the cap closed at all times.

CAN I WASH THE PRODUCT? Yes, with the cap closed. See washing instructions on the inside of the vest.

What is CPAI-84??

The CPAI-84 (Canvas Products Association International) Standard is widely used in the industry and has been adopted by states such as California and New Jersey. It provides testing methods for evaluating the flame resistance of fabric and other pliable materials in camping tentage. It also provides performance criteria and certification guidelines for suppliers (like us!) and labeling requirements that identify a tent as being constructed of flame-resistant materials and caution against action detrimental to those flame-retardant finishes.

6000

LET WINTER RAGE.

WARMING PRODUCTS

N-FERNO® WARMING PRODUCTS

Since our ancestors decided to forego their furry coats, live indoors and walk upright, man has been locked in a pitiless battle with Mother Nature. No holds barred, take no prisoners. N-Ferno® Warming Products have leveled the playing field and put Mother Nature (and her little toadie Jack Frost) on the ropes. And are we letting them back up? There's a cold chance in hell.

DANGER STARTS WELL BEFORE ZERO //

Different as they feel, cold stress is just as dangerous as heat stress. But with its sneaky symptoms, it often goes undetected until it's too late. Like any safety hazard, awareness is key. Understanding the dangers of cold stress – and how to properly respond – can save appendages (and lives).

FROST BITE

SYMPTOMS: PALE, WAXY-WHITE SKIN COLOR; SKIN BECOMES HARD AND NUMB; USUALLY AFFECTS EXTREMITIES INCLUDING EARS AND NOSE.

RESPONSE:

- Move the person to a warm dry area and remove any wet/tight clothing that may cut off blood circulation.
- DO NOT rub the affected area, rubbing can cause skin/tissue damage.
- Gently place the affected area in warm (105°F) water. Do not pour water directly on affected area. Warming will take 25-40 mins.
- Once normal feeling, movement and color return to area, dry and wrap to keep warm.
- Seek medical attention as soon as possible.

HYPOTHERMIA

SYMPTOMS: FATIGUE/DROWSINESS; UNCONTROLLED SHIVERING; COOL BLuish SKIN; SLURRED SPEECH; CLUMSY MOVEMENTS; IRRITABLE/IRRATIONAL/CONFUSED BEHAVIOR.

RESPONSE:

- CALL FOR EMERGENCY HELP IMMEDIATELY.
- Move the person to a warm dry area and remove any wet/tight clothing and replace with dry clothing or wrap in a blanket.
- Drink warm, sweet drinks (sugar water or sports-type drinks). Avoid caffeinated drinks.
- Have the person move their arms and legs to create muscle heat. If unable to do so, place hot packs in armpits, groin, neck, and head. DO NOT rub the person or place them in warm water.

EASY ACTIVATION

STOCK UP AND PUT 'EM TO USE!
MOST N-FERNO® WINTER LINERS
INCLUDE POCKETS NEAR THE EARS
FOR WARMING PACK USE.
TOASTED EARS FEEL BETTER!

N-FERNO® WARMING PACKS

Whether in mittens or gloves, the 6990 Hand Warming Packs come in handy whenever you need to keep fingers from freezing. Most N-Ferno® Winter Liners come standard with warming pack pockets designed specifically for the versatile little power packs of heat to keep ears nice and toasty. You can even get crazy and toss one in a pocket! The 6992 Toe Warming Packs adhere to the insole of a shoe or boot to keep toes comfortable – so frostbite can fuggedaboutit. For those who need full foot heating, there's the 6995 Full Foot Warming Packs.

DON'T EYEBALL
THIS ONE

You look mah-velous! Don't screw it up with improperly sized duds. You come in all shapes and sizes and so does our gear. Use our sizing spread to get fitted out and styled up.

				
ProFlex® Gloves	ProFlex® Wrist Supports	ProFlex® Wrist Wraps	ProFlex® Elbow Supports	Ergodyne® Knee Sleeves
Measure around the palm. DO NOT include the thumb area. Use the size chart across the bottom of this page to double check your size choice.	Measure around the smallest part of the wrist.	Measure around the smallest part of the wrist.	In a relaxed position, measure around the widest area of the forearm just below the elbow. For best fit, an elbow support should sit about 2-3 finger widths below the elbow crease.	Measure around the center of the knee with the knee extended.

What size do you need?
Place the index finger OF YOUR RIGHT HAND next to the dotted line as shown. To find your proper size, refer to the closest line to the right side edge of your hand.

Align with the dotted line at left for optimum grip and finger control, glove should fit snug.

Use this “handy” diagram to determine which ProFlex® Glove fits your hands.

TREX™ Ice Traction				
Use shoe or boot size to determine the appropriate size. TREX™ Ice Traction should fit snugly.

SIZE UP THE SITUATION

Improperly sized gear is a prime cause of heartache and sadness. Remember when you showed up at school wearing high-water pants? Of course that's nothing compared to the crack-tacular combination of too-short shirt and too-loose pants. Don't let these calamities occur. Your gear will be more effective and comfortable if you choose appropriate sizes.

CHEST: Measurement should be taken around the fullest part of the chest with arms down, just under the arms and across the shoulder blades.

WAIST: Measure around waist (not pulling tightly) at the height you prefer to wear the waistband.

INSEAM: Take a pair of pants that fit you well and measure from the crotch to the bottom of the leg.

STEEL-PLATED, ROCK-SOLID, GOOD AS GOLD GUARANTEE.

Do not burn yourselves out. Be as I am — a reluctant enthusiast ... a part-time crusader, a half-hearted fanatic. Save the other half of yourselves and your lives for pleasure and adventure. It is not enough to fight for the land; it is even more important to enjoy it. While you can. While it's still here. So get out there and hunt and fish and mess around with your friends, ramble out yonder and explore the forests, climb the mountains, bag the peaks, run the rivers, breathe deep of that yet sweet and lucid air, sit quietly for awhile and contemplate the precious stillness, the lovely, mysterious, and awesome space. Enjoy yourselves, keep your brain in your head and your head firmly attached to the body, the body active and alive, and I promise you this much; I promise you this one sweet victory over our enemies, over those desk-bound men and women with their hearts in a safe deposit box, and their eyes hypnotized by desk calculators. I promise you this; You will outlive the bastards.

– Edward Abbey
