MANUFACTURING / U.S.A

**USA**  
CATALOG 2020

# Welcome.....

to Spyder Manufacturing's 2020 Sales Catalog. We hope that you can take a couple minutes to review our product offering.

While looking toward the future, we wanted to take this opportunity to explain a little of who Spyder is.

Spyder Manufacturing took its shape from the blending of two Southern California companies focused on the lawn & garden industry. One company specialized in the manufacture, assembly, and distribution of metal lawn and garden hand tools. Founded in 1991, this company's product line included the lopping shears, hand pruners, and rakes that you still see in this catalog.

The other company's core business was in the manufacturing, assembly and distribution of commercially sewn products. With this company's origin dating back to the 1970's, the product line consisted of commercial truck tarps, lawnmower bags, and sweep catchers. In addition to these products, this company had an extensive and diverse background in the construction of tooling, dies, and templates with the capabilities of far more.

In 2002, with the acquisition of a new 19,000 sq. ft. facility in Placentia California, the joining of the two companies was completed. Combining the experience and expertise of these two diverse enterprises resulted in the formation of Spyder Manufacturing, named for its expanding web of product offerings:

- The Phoenix Tools brand of high quality hand tools including Phoenix Easy Rakes, hand pruners, loppers, cultivators, etc.
- The Falcon Bags brand of quality commercially sewn products such as aftermarket Falcon Lawnmower Bags, vacuum bags, and Falcon Custom Truck Tarps.
- The Climb Right brand of professional arborist equipment and supplies.

With over 100 years of combined manufacturing, design, sales, and marketing experience, Spyder Manufacturing has evolved into a full functioning, solar powered, state of the art manufacturing facility. Today, utilizing our capabilities of 3-D printing, plasma cutting, laser cutting and marking, CNC machining, CNC sewing, etc. we can develop a product all the way from concept to finished goods. These capabilities have enabled Spyder Manufacturing to expand our "web" to such products as: Climb Right's exclusive patented Ultra Lightweight Aluminum Climbers, rope grabs, wire core lanyards, climbing and work positioning saddles, and custom sewn rope products for the professional arborist. Phoenix brand Lightweight Fiberglass Pole Pruner Systems featuring the Phoenix Pruner Head, Ultra Lightweight Carbon Fiber poles, etc.

As we go forward, Spyder Manufacturing will continue to look for ways to integrate the latest technologies to address the future challenges that our industry presents.

## TERMS & CONDITIONS

### General Policies

1. Possession of this catalog does not automatically constitute the right to purchase.
2. Product specifications are subject to change without prior notice. Catalog images are for illustrative purposes only; actual items may vary in appearance.
3. All orders taken by **Spyder Manufacturing** will be subject to availability of merchandise on hand.
4. All submitted orders are assumed as accepting of our general terms as stated herein.
5. Any conflicting terms stated on the purchase orders will not supersede our terms.
6. Spyder Manufacturing reserves the right to modify or alter these Terms & Conditions at any time without prior notice.

### Limited Warranty

1. **90 day Limited Warranty from date of purchase (excludes vacuum bags).**
2. Spyder Manufacturing warrants that the goods shall be free from defects in materials and workmanship for a period of 90 days from the date of delivery to customer.
3. Spyder Manufacturing's Limited Warranty does not cover: normal wear and tear; items that have been abused, misused, or neglected; items that have been altered or modified; items that have been used in a manner not consistent with the manufacturer's instructions
4. Spyder Manufacturing sole responsibility with respect to claims made within said 90 days period shall be, at its option, to repair or replace any items which it deems to be defective.
5. **Transportation costs to and from Spyder Manufacturing are not covered by this Limited 90 day warranty.**
6. **Returns must be pre-approved before returning. Returns are subject to a 20% restocking fee. Special orders and custom Truck Tarps are non-refundable.**

### Pricing

1. Prices are subject to change without notice.
2. Spyder reserves the right to invoice at prices in effect at the time of shipment.
3. Prices are F.O.B. our warehouse unless otherwise stated.

### Terms

1. Cash, Check, Money Order or Credit Cards are accepted or on approved credit.
2. Open account invoices are due and payable 30 days from date of invoice unless stated otherwise.
3. **Minimum order amount per invoice is \$50.00.**
4. Accounts past due will be charged 2.0% each 30 days after the 31st day of invoice date.
5. Qualifying volume discounts may be taken provided full payment is received in our office on or before the invoice due date. Payments including volume discounts received after their due date will be credited as partial payment with the balance owing.
6. All accounts must be current before new orders are delivered.

### Shipping

1. Southern California deliveries (zone 2 on FedEx charts, origin Spyder Manufacturing): invoices of **\$500.00** or more and **not considered oversized**(♦) will be sent **prepaid freight**.\*\* Invoices of **\$800.00** or more and containing items up to 95" maximum dimension will be sent **prepaid freight**.\*\* Invoices containing items up to 96" or greater will be assessed a surcharge.
2. All other areas of California and the 48 contiguous states: Invoices of **\$1500.00** or more and **not considered oversized**(♦) will be sent **prepaid freight**.\*\* Invoices of **\$3000.00** or more and containing items up to 95" maximum dimension will be sent **prepaid freight**.\*\* Invoices containing items 96" or greater will be assessed a surcharge.
3. Any back orders will be sent with your next available order going out.
4. All other states and countries: All orders shipped will be F.O.B our warehouse unless otherwise specified by **Spyder Manufacturing**. International Transaction may be subject to surcharges for document preparation.
5. Minimum orders for **distributors** to get prepaid freight is **\$3,000**.
6. Loss or Damage: Immediately, upon receipt of merchandise, report all claims for losses or damage in shipment directly to the delivering carrier. Any delay may cause you a loss. All merchandise is shipped F.O.B. our warehouse. Therefore, the carrier is legally responsible to you for any losses resulting in your shipment. Although our responsibility for your shipment ends upon receiving by the carrier, we will gladly extend whatever assistance necessary to help you file your claim for the loss. You must pay your invoice in full and submit your claim for the loss to the carrier.
8. Please note that shipping weights may vary due to the inconsistency of packaging materials.

**Any and all orders of tools may be subject to oversize and additional handling charges from Fed Ex or an equivalent carrier.**

**\*\*Does not include poly tarps, trash bags, & oil goods.**

**CLIMB RIGHT**

SPYDERMAN.COM

Climb Right's climbers feature a patented design which gives them strength, durability, and style. Unlike one piece climbers, our Climb Right Climbers utilize an aluminum lower J portion that is precision milled to exact tolerances, then tailor matched to an aerospace quality aluminum upright.

Patent number: 8,733,505 B2

Climbing trees is a hazardous activity. Only properly trained professionals using the best safety techniques should use this equipment.

These climbers also include Spyder Manufacturing's "Quick Change" style gaffs. These forged gaffs employ a rapid change 2-screw design, enabling the operator to switch or replace the gaffs with ease.

Another feature of the Climbers is the dual purpose "Grip Strip". This patented grip strip provides added traction while walking on tree limbs, and doubles as a wear strip to inform you when it is time to replace your J Hooks.

**Step up to the  
Climb Right  
Climbers with the  
"Quick Change" gaffs!**

## New Safety Features for 2020!

New for 2020, our Climb Right Wire Core Lanyards have been further improved. Our new hydraulic press crimps each termination twice. The first crimp secures the wire core around the eye. The second crimp secures the outer rope cover to the wire core, while also eliminating the flex fatigue between the two crimps. This also prevents the rope cover milking away from the terminations. This new process minimizes voids without injuring the wire core.

*When Your Life Is On  
Our Lines, Your Safety Is  
On Our Minds!!!*

- Every Lanyard is Individually Load Tested to 650 Lbs!!!
- Made in the USA
- ANSI Approved High Quality Double Locking Snaps
- Any Style of Lanyard can be Made to Any Size

# CLIMB RIGHT

A Division of Spyder Manufacturing Inc.

Spyder Splicing is the revolutionized process of splicing rope ends.

Utilizing advanced, state of the art sewing technology, we can maintain the strength and integrity of traditional "crimping" methods while eliminating weight and bulk.

## Prusik Split Tail Rope Ends

Description	Part #	MSRP
Ninja Spyder Splice	36040	\$ 15.75
Ninja Spyder Splice Both Ends	36042	\$ 26.25

Together with our new "Ninja Sheath" protective eye guard, we have created the perfect rope end. The very strong, wear resistant Cordura® sheath is added to the sewn spliced eye providing maximum protection and adding years to the life of your rope.

## Shrink Tubing

\*Sold per 1' piece.  
Continuous quantities  
available upon request  
up to 100'

Description	Part #	MSRP
Black 5/8" x 1'	33101	\$ 2.50
Black 3/4" x 1'	33102	\$ 2.65
Black 1" x 1'	33103	\$ 3.05

## HONEY BADGER SADDLES

Designed for mobility and comfort, Climb Right's most advanced saddle is our new Honey Badger. The 6-1/2" high back pad tapers to 3-1/2" on the sides for mobility and is secured by an ISC Klick-Lock buckle. Each 3" wide (and 3/8" thick) leg pad is adjusted with quick connect buckles for comfort and fit. The (replaceable) bridge rope is made of 32 strand Honey Badger climbing rope. Equipped with multiple tool attachment rings and loops, plus our exclusive "B" rings. Sewn in the USA by Spyder Manufacturing.

Spyder's exclusive "B-Ring". This split ring design is for increased versatility, easy maneuverability, and freedom of movement, while also allowing the use of two independent systems. Made of 7075 aircraft grade aluminum.

Description	Part #	MSRP
Honey Badger Saddle Small/Medium	83082	\$ 420.00
Honey Badger Saddle Medium/Large	83083	\$ 420.00
