Package Size : 610×280×600mm≈0.1m³ 24×11×23.6 / 39.2≈6102in³

Relax mode

The Relax mode keep the body in a relaxed state. Lift the backrest to the level of dorsal and tilt backward, adjust the seat-rest at horizontal angle.

Consulting mode

The Consulting mode facilitates face to face communication between practitioner and patient in a comfortable posture.

Adjust the backrest to upright position, and seat-rest to horizontal angle, this posture helps support the spine at a straight and comfortable state.

Operation mode

The Operation mode is specially suitable for working at a forward leaning position.

Adjust the backrest to support the waist, and the seat-rest at incline angle. Helping the thigh and calf to form a 120-degree angle will reduce stress of the spine and prevent injury.
