# STRETCH ASSIST™ SYSTEM FOR ELLORA™ FLAT TOP AND SEDONA™ FLAT TOP TABLES

HEALING HUMANITY THROUGH TOUCH™

# STRETCH ASSIST™ SYSTEM FOR ELLORA™ FLAT TOP AND SEDONA™ FLAT TOP TABLES

Earthlite® Stretch Assist™ System, an all-in-one table and band system, is the ultimate solution for assisted table stretching. The Stretch Assist™ System aids practitioners in stabilizing the client in ideal positions for deep, dynamic stretching. The system provides excellent support and stability, allowing the practitioner to safely and comfortably apply stretching techniques without strain or discomfort. Its user-friendly design and superior functionality make the Earthlite® Stretch Assist™ system an invaluable tool for practitioners who want to enhance their table stretching sessions and provide their clients with exceptional results.

The extra wide padded cushion has two adjustable straps designed to ensure superior comfort for the client. Smooth finished full length steel bars allow the straps to glide along the bar for ease of repositioning. The Stretch Assist™ System is ideal for isolating and stretching muscles, to increase range of motion, flexibility and reduce pain.
