VIBRATIONAL THERAPY

MIND-SYNC™ HARMONIC WELLNESS LOUNGER

The Mind-Sync™ Harmonic Wellness Lounger is an unattended, zero gravity treatment lounger designed to reduce stress and anxiety levels and enhance restorative sleep states. It combines clinically tested, vibro-acoustic sound therapy with perfect zero gravity positioning for accelerated guest stress restoration. Six (6) total immersion therapy programs ranging from 20 to 60 minutes, enhanced sleep, and restorative meditation in 25 to 60 minute durations. Perfect for pre- and post- spa and wellness treatments, the Mind-Sync chair offers significant unattended revenue potential as both an add-on or stand-alone service. The experiential Mind-Sync Lounger utilizes four powerful, full spectrum transducers to flow Quantum Harmonic™ sound waves through the body, while noise dampening headphones deliver two channels of proprietary brainwave entrainment frequencies, masked by gentle music and nature sounds to help over-ride our sympathetic nervous system (fight or flight), moving clients to the more relaxed, para-sympathetic control. Perfect for use in relaxation areas and/or dedicated treatment rooms.

Electronic controls to achieve perfect positioning

Elegant double stitching

Features

- Six programs in three popular treatment categories: Vibrational Wellness, Sleep Therapy, and Restorative Meditation. Treatment options ranging from 20 to 60 minutes.
- Completely unattended wellness treatment chair - Intuitive touch screen control system eliminates the need for attendants.
- Adjustable Zero Gravity comfort – Fully adjusted luxury lounger promotes unprecedented relaxation, recovery, and ability to sleep.
- Powerful, full spectrum sound waves - Four powerful 80 watt per channel transducers create an unprecedented harmonic experience.
- Versatile Revenue and Experience Enhancing Equipment – Multi-purpose, multi-modality revenue generation opportunities exist for both attended and unattended treatments.
- Noise dampening headphones
