

P2™ Back Stretcher

The Teeter P2 Back Stretcher is an FDA-cleared Class 1 medical device indicated for back pain and related conditions. Lightweight and easy-to-use, the P2 is an effective way to decompress the back whether at home or on-the-go! Simply lie down and push on the handles - with the P2 positioned comfortably, you can easily apply gentle, user-controlled traction, which works to help reduce nerve pressure and relax tense muscles in the lower back area. The P2 cleverly accommodates those who are looking for an alternative to traditional inversion equipment or for those who love their Teeter Inversion Table, but need a portable travel solution.

Easy to Use - 3 Ways in 1! One Size Fits Most

Sitting Down

Ideal for users with limited mobility or for those looking to achieve a light lumbar stretch.

Lying Down

Delivers a moderate level of stretch to the lower back area.

Lying Down with Feet Elevated

Preferred positioning - delivers a deeper level of stretch for maximum traction and relief.

Compact Decompression Solution

Decompression On-the-Go

The compact design offers a portable stretching solution, and if needed, the Lap Pad Bar easily disengages for travel.

Lightweight, Durable Steel Design

The steel construction provides stability and durability, but weighs just under 4 lb. so it's easy to maneuver.

Relieve Pain in Comfort

Adjustable Lap Pads

With the ability to slide horizontally or rotate to any angle, the Lap Pads fit comfortably over the thighs in just the right position for every user.

Comfortable Roller Supports

Large foam Roller Supports cover a large surface area behind the knees to help provide leverage during the stretch without causing unpleasant pressure.

Foam-Covered Hand Grips

With a soft, non-slip covering, the Hand Grips ensure comfortable application of traction.
