STIFF TWIN BEAM CONSTRUCTION

Stiffer than cantilever designs and with fewer moving parts, our design supports all your work with a 18"- 36" height range and a powerful ETL listed motor.

FIRM RESPONSE FOAM

Firm Response foam is designed to deliver a firm yet comfortable surface that maximizes Physical Therapists' ergonomic efficiency during examination and intervention procedures. Additionally, this surface minimizes Manipulation Dry Hits with its super high density, twin layer design. The Firm Response foam enables increased reliability of patient examinations.
