

8' CONFINED SPACE TRIPOD

WITH DUAL-PULLEY SYSTEM

The FallTech 8' Confined Space Entry Tripod outperforms typical industrial confined space systems by providing ease of setup, greater lifting range and integral pulleys that reduce risk of harm to the attendant.

Designed to facilitate non-entry rescue techniques, included are two integral head mounted pulleys for multi-line entry, egress and rescue. This dual-pulley system significantly minimizes the need for an attendant to lean over openings and provides greater clearance while attempting rescue.

- 55" to 91" Working Height with 6" adjustments
- Compact 64" folded/transit height
- Weighs just 50 lbs
- Includes 70" weather resistant storage bag
- Leg Bracket sold separately or included in Tripod Kits

MATERIAL & PERFORMANCE SPECS

Max User Capacity: 310 lbs.

Standards/Regulations: ANSI Z359.1-2007 OSHA 1926.502

7507: CONFINED SPACE TRIPOD KIT

INCLUDES

7276: 8' Confined Space Tripod w/Storage Bag

7293: 60' Personnel Winch w/Galvanized Cable and Equipment Bag

7291B: Leg Bracket Assembly for 7276 Tripod

7508: CONFINED SPACE TRIPOD KIT

INCLUDES

7276: 8' Confined Space Tripod w/Storage Bag

7281: 60' Retrieval SRL w/Galvanized Cable and Equipment Bag

7291B: Leg Bracket Assembly for 7276 Tripod

7509: CONFINED SPACE TRIPOD KIT

INCLUDES

7276: 8' Confined Space Tripod w/Storage Bag

7293: 60' Personnel Winch w/Galvanized Cable and Equipment Bag

7281: 60' Retrieval SRL w/Galvanized Cable and Equipment Bag

7291B: (2) Leg Bracket Assembly for 7276 Tripod
