

 FALLTECH®

FT-One™
FULL BODY
HARNESS

Patent Pending

FT-ONE

The FT-One™ is THE premium full body harness that delivers the ultimate in performance without restricting the way you work. Ergonomic comfort, light weight, and infinite adjustability, all in one premium harness.

Premium Body Harness

FT-One™

Neoprene Neck Guard

Say goodbye to painful neck irritation. The FT-One's neoprene-lined shoulder pad reduces neck abrasion, enhancing harness comfort all day long.

Abrasion Resistant Shoulder Panels

Don't let your shoulder pads wear out prematurely from constant use and carrying heavy loads. Our industry-exclusive shoulder material helps alleviate excess wear, keeping your harness in service longer.

Comfort Gel Padding

Our advanced gel padding material disperses harness loads and eliminates hot spots and pressure points for the ultimate in day-long comfort.

Upgraded Lanyard Keepers

We installed durable lanyard keepers that provide robust functionality for single and double-leg lanyards. They add versatility and reusability while maintaining ANSI compliance.

Suspension Trauma Relief Packs

Our suspension trauma relief system helps minimize the effect of being suspended while awaiting rescue. The adjustable length step-in loop design accommodates both of the user's feet to relieve pressure and improve balance.

Front View

Exclusive Comfort Legs™

These game-changing lateral leg straps greatly improve both mobility and comfort. Our revolutionary form-fitting straps wrap easily around your thighs - away from sensitive pinch points.

The fall protection experts at FallTech® designed the FT-One™ to help eliminate the soreness, chafing and pinching caused by lesser harnesses. What you get is ergonomic comfort, light weight and infinite adjustability, all in one state-of-the-art harness.

Premium Body Harness FT-One™

Slip-Resistant ArrowGrip® D-Ring Plate

Keeps your dorsal D-ring positioned correctly and keeps harness adjustments to a minimum throughout the day. Don't let D-ring slippage compromise your safety or comfort.

Updated SRL Attachment Point

Our convenient SRL attachment design lets you connect all types of single and twin SRLs – faster and easier than ever. No more fumbling with the harness webbing every time you connect.

Modular Belt System™

The FT-One's modular belt lacing system lets you custom-configure your tool pouch positions for ease of use, comfort and efficiency. No need to cut or modify your tool bags to fit the harness.

Multiple Tool Tether Anchors

The FT-One includes four ANSI / ISEA 121-compliant tool tether anchor attachments, rated at five pounds each. Conveniently located around the waist belt, they offer a customizable range of tool bag positions.

Heavy Duty Waist Belt

The belt stays firmly in position, even when carrying the heaviest tools. Rugged composite reinforced construction makes it possible. Plus, our perforated gel lumbar support padding adds cool breathability.

Free-Flowing Air Vents

Our improved intake and exhaust ports – plus deeper air channels – increase breathability and venting. Even after the longest of workdays, they stay cool, dry and odor-free.
