30’ Class 2 SRL Replacement Cable

The FT-R+ Replacement Cable is a dedicated spare lifeline designed exclusively for the FT-R+ SRL. Crafted from 7/32-inch galvanized steel cable and available in a 30-foot length, this Class 2 Leading Edge lifeline supports workers weighing up to 420 pounds. Engineered for reliability, it is rigorously tested to meet or exceed OSHA, ANSI, and CSA standards, so you can work with confidence and peace of mind.

The FT-R+ helps you:

Minimize Downtime:
Repair SRLs in minutes, not weeks, to keep operations running smoothly.

Reduce Costs:
Avoid the high cost and hassle of sending damaged SRLs to offsite repair centers.

Maintain Project Schedules:
Keep projects on track without the delays caused by SRLs being out of service.

The FT-R+ Replacement Cable Meets the Following Standards:	
ANSI	Z359.11-2021
OSHA	1910.140 926.502
CSA	Z359.2.2-17 (R2022)
