Class 2 Self-Retracting Lifeline

As the industry's first and only field-repairable ANSI Class 2 SRL, the FT-R+ enables safety managers to perform on-site repairs quickly and efficiently, minimizing downtime on even the most demanding job sites. Built to support workers up to 420 pounds, the FT-R+ delivers unparalleled resilience and reliability while meeting the highest safety standards where it matters most.

The FT-R+ helps you:

Minimize Downtime:
Repair SRLs in minutes, not weeks, to keep operations running smoothly.

Reduce Costs:
Avoid the high cost and hassle of sending damaged SRLs to offsite repair centers.

Maintain Project Schedules:
Keep projects on track without the delays caused by SRLs being out of service.
