

FT-X™

LEADING EDGE CABLE

The 8' FT-X™ Cable is a lightweight and comfortable premium Class 2 Leading Edge Cable SRL for fully-loaded workers weighing up to 420 lbs.

It includes field-replaceable retractables for zero downtime and extended service life.

Do these personal SRL complaints ring a bell?

- When I bend down the retractables keep hitting my head and knocking my hard hat off.
- My SRL is heavy and tugging on my back
- Nuisance lockups are affecting my productivity
- Why can't I replace only the retractable instead of the whole twin unit?
- Getting the SRL on and off takes too long
- These devices are so big and clunky

You deserve a complaint-proof SRL
