

ANCHOR

PARAPET AND EDGE GUARDRAIL

Setting up a portable construction guardrail system is a cornerstone of fall prevention when working on open floors or roof tops where fall hazards exist. The FallTech portable guardrail components provide a secure and effective perimeter for both roof tops and when closing off a floor to eliminate a fall hazard. The design offers a versatile clamp and post that are able to be installed on both a parapet or on the edge of a concrete slab.

- Adjustable – Clamping capacity ranges from 6.5” to 24.5” for fast and easy installation.
- Adaptable – For added flexibility, guardrail clamps can be installed on concrete or wood structures.
- Corrosion resistant construction – Zinc plated steel construction offers a durable finish for extended life.
- Versatile – Can be used on a parapet or slab-edge adding versatility and saving costs.
- Full compliance – When used in an edge application, a toe-board plate provides compliance and safety for workers below the working floor.
- Complies with OSHA 42” (+/- 3”) for both parapet and edge applications
- Simplicity – Designed to be used with common 2”x4” lumber for hassle-free jobsite installation and management.

Certification

- OSHA 1926.502

Material & Performance Specifications

- Frame: Zinc plated tubular steel
- User Capacity OSHA-- Guardrail systems shall be capable of withstanding, without failure, a force of at least 200 pounds (890 N) applied within 2 inches (5.1cm) of the top edge, in any outward or downward direction, at any point along the top edge.

Part Number		Description
6040422	Complete System	Guardrail Post/Clamp Set 42” Edge/Wall
6401422	Replacement Components	Guardrail Post 42” with 2-rail brackets
6402ADJ	Replacement Components	Guardrail Adjustable Clamp Base Edge/Wall
