

ROTATING SWIVEL ANCHOR

WITH 360° ROTATION

Safe. Secure. Reusable.

Designed for steel to connect to a workers fall arrest or SRD for safety for workers at heights.

- **Movement** – Swivel design provides 360° D-ring rotation and 180° pivot. Designed for steel installation for connection of user's fall arrest when working at heights.
- **Versatile** – Permanent and portable structure mount options for steel.
- **Strong** – Available in 5,000 lb, PN 7393S and 10,000 lb, PN 7393W tensile strength.
- **Corrosion Resistance** – Zinc-plated steel construction.
- **Removable/Reusable** – The Swivel Anchors can be removed and simply re-installed in a new location.
- Rated for up to a 425 lb. worker.
- Complies with OSHA 1910.66 and 1926.502 and ANSI Z359.1-2007.

7393S

Bolt-on Rotating
D-Ring Anchor for Steel

Includes Anchor and
bolt & nut for easy
installation
