

**TRADESMAN
PRO**

There's ticky-tacky fall protection, and then there's professional.

Protection, plus comfort, the Tradesman® Pro harness is professional level at a price anyone can afford.

Do you feel these annoyances with your harness?

- My leg straps chafe my thighs and cramp my movement
- The D-ring lets my SRL slide, causing me back pain
- My waist belt digs in, rubs and causes hot spots
- That strap across my rear end wears out too fast

We hear you. Get everything you need in a harness, minus the discomfort.
