The following features and benefits make the BP3 a must for any serious program.

A) **Patented Grip-Tite® 12" non-marking pneumatic tires**—Average 20-year life expectancy compared to 5-year solid-tire life expectancy.

Grip-Tite® tires provide superior pitch accuracy compared to any other 3-wheel machine. Grip-Tite® tires will not melt, crack or chunk like solid tires.

B) **3 wheels provide better contact with the ball for exceptional pitch control and accuracy.**

C) **3 wheel design eliminates the need to rotate the machine to change pitches.**

D) **Always-see-the-ball™ delivery system:** the black "hitter's eye" ball chute gives your hitters an unobstructed view from machine to hitting zone..

E) **Throws Changeups:** change from fastball to changeup at the touch of a button using the remote control on key chain or manual button located on control panel.

F) **Large 3" LCD Readout Display**

G) **Digital Speed Adjustment:** 40-90 mph.

H) **Select-A-Pitch™ Dial:** The BP®3 throws the following nine pitches at the turn of a dial.

- **Fastballs and Changeups**
- **Right- and Left-handed Curveballs and Sliders**
- **Right- and Left-handed Cutters**
- **Split-finger Fastballs**

I) **Fastball/Changeup Hitting Circuit:** 3 preset hitting circuits allows the machine to automatically change between fastball and changeup giving your hitters a "real" pitcher vs. hitter experience.

J) **Micro-Adjustment:** Pinpoint™ control at your fingertips—the most advanced and easy to use pitch targeting system ever developed for a pitching machine (patent pending.)

K) **Vertical and Horizontal Macro Adjustment Levers:** Throwing deep 325' fly balls or towering pop-ups has never been easier. 360 degree rotation allows you to easily practice using the entire field.

L) **Quick-Snap® leg attachment**—No T-handle or leg clamp necessary.

M) **Easy to move and set up**—Simply lock machine in the "pop-up" position, lower to the ground and wheel your machine like a wheel barrow.

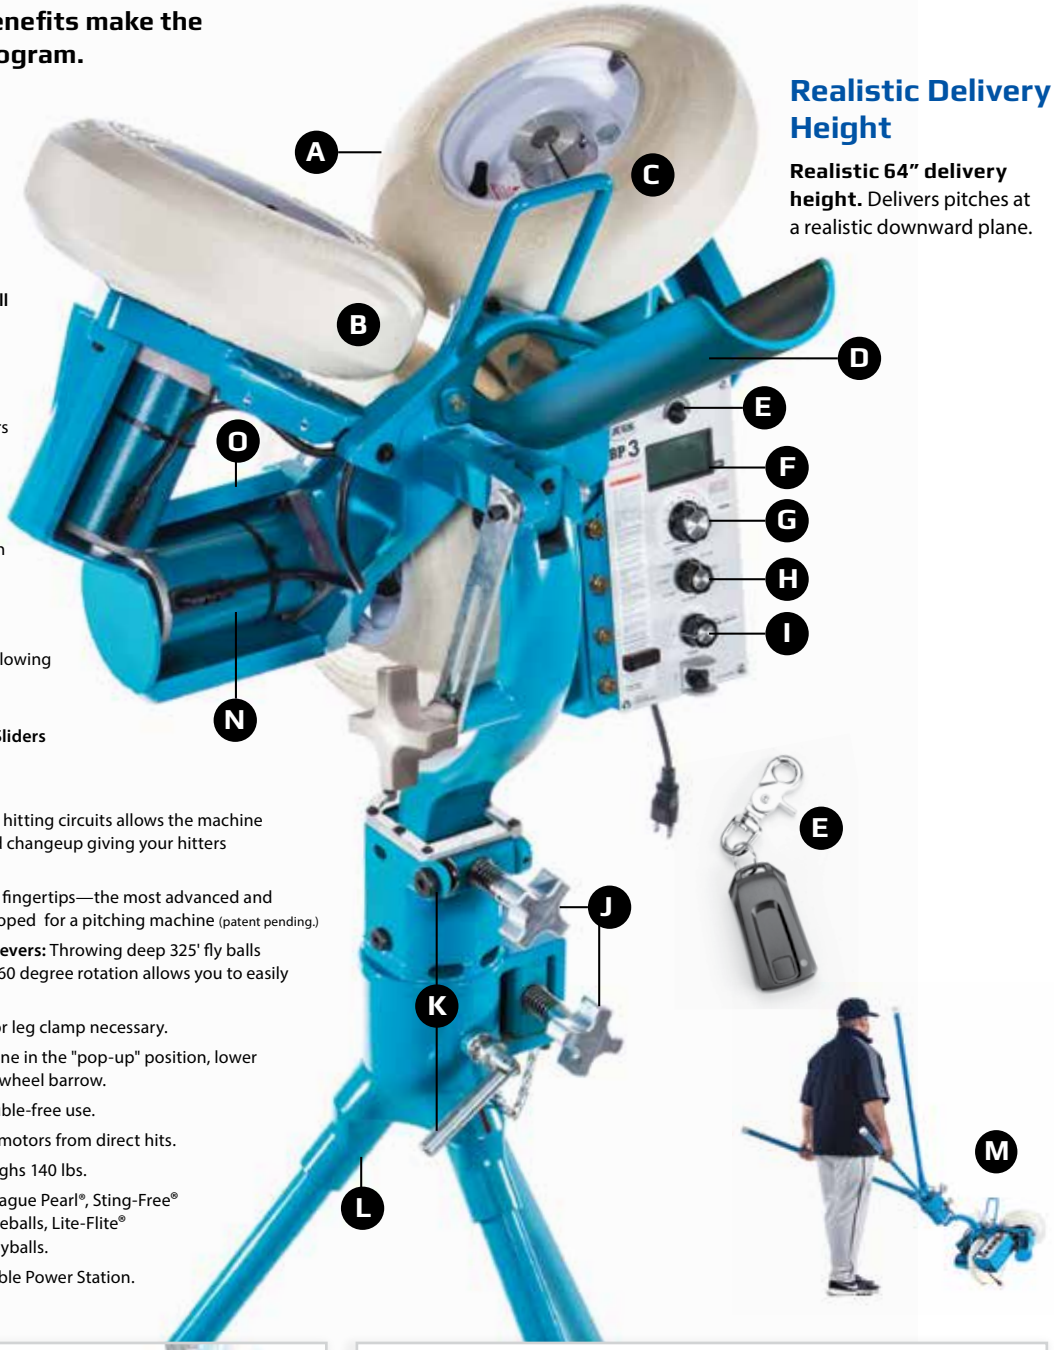

N) **Three ¼ HP motors** will give you years of trouble-free use.

O) **Three cast-aluminum motor guards** protect motors from direct hits.

P) **Cast aluminum and steel construction**—weighs 140 lbs.

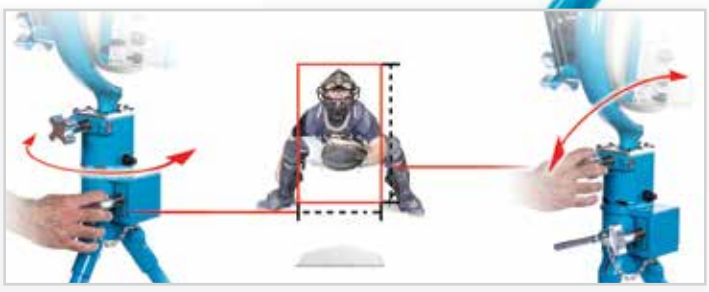

Q) Throws baseballs, JUGS Pearl®, JUGS Youth League Pearl®, Sting-Free® baseballs, Maximum Velocity Sting-Free® baseballs, Lite-Flite® baseballs, Softie® baseballs and Bulldog™ polyballs.

R) Runs on 110-volt AC or the Bluetti AC70 Portable Power Station.

Custom Netting: All applications, all sizes, all the time.

JUGS Sports not only offers custom netting for baseball and softball, but for many other applications as well. Any dimension, all mesh and fiber sizes, and all strengths are available to fit your specific needs.

Twisted Knotted Black Polyethylene #27, #42 , #60 and #96 Batting Cage Netting Features and Benefits:

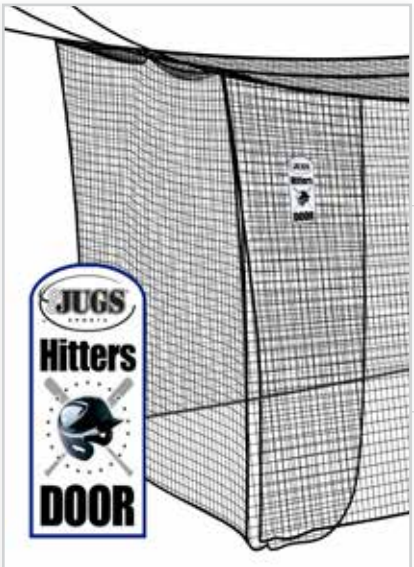

- Twisted Knotted Black Polyethylene Nets are hung on the square and are designed specifically for baseball and softball use.
- All JUGS nets come with a JUGS Hitter's Door for easy in-and-out access.
- Knotted nets have a higher overall strength and durability rating making them superior for direct impact sports like baseball and softball.
- Twisted netting has a higher abrasion resistance than braided, because twisted has less surface area than braided. This allows the balls to slide and spin off of the surface.
- Polyethylene netting doesn't absorb water—perfect for wet or humid hot climates—This is the best protection to prevent rotting.
- All JUGS nets are black and offer the best protection from the affects of sunlight—the darker the color, the greater the UV deflection.
- We incorporate the industries highest UV protection.
- JUGS netting is hydraulically depth-stretched to improve knot tightness and reduce stretching and shrinking over time.
- Baseball and Softball size mesh–1¾".
- Heavy-Duty Polypropylene Black Rope Borders on top, bottom, and vertical corners. Rib-Line Ropes down the center for extra suspension points with less sagging.
- **1-Year Guarantee on #42 and #60.**
- **2-Year Guarantee on #96.**
