"Oh, wow moments are—pitchers that are multi-dimensional. Well now there's a multi-dimensional pitching machine. It's incredible. It gives me goose bumps."

Michele Smith—

1996, 2000 Olympic Gold Medalist

The most advanced Softball Machine ever developed—This is as close as a machine can get to a live pitcher—A state-of-the-art 3-wheel machine that can go from fastballs to changeups without the hitter knowing it— throws 8 different pitches.

Change speeds without the hitter knowing it!

Switch between fastballs and changeups with the touch of a button using the hand-held remote control. Remote control can be used at the machine or even behind the hitter.

45–75 mph Speed Range

Carousel Feeder

OPTIONAL 18-Softball Carousel Ball Feeder: See Page 8 for more details.

The following features and benefits make the BP®3 a must for any serious program.

A) Patented Grip-Tite® 12" non-marking pneumatic tires—Average 20-year life expectancy compared to 5-year solid-tire life expectancy.

Grip-Tite® tires provide superior pitch accuracy compared to any other 3-wheel machine. Grip-Tite® tires will not melt, crack or chunk like solid tires.

B) 3 wheels provide better contact with the ball for exceptional pitch control and accuracy.

C) 3 wheel design eliminates the need to rotate the machine to change pitches.

D) Always-see-the-ball™ delivery system: the black "hitter's eye" ball chute gives your hitters an unobstructed view from machine to hitting zone.

E) Throws Changeups: change from fastball to changeup at the touch of a button using the remote control on key chain or manual button located on control panel.

F) Large 3" LCD Readout Display

G) Digital Speed Adjustment: 45-75 mph.

H) Select-A-Pitch™ Dial: The BP®3 throws the following eight pitches at the turn of a dial.

- **Fastballs and Changeups**
- **Right- and Left-handed Curveballs and Screwballs**
- **Risers and Drop Balls**

I) Fastball/Changeup Hitting Circuit: 3 preset hitting changeup giving your hitters a "real" pitcher vs. hitter experience.

J) Micro-Adjustment: Pinpoint™ control at your fingertips—the most advanced and easy to use pitch targeting system ever developed for a pitching machine (patent pending.)

K) Vertical and Horizontal Macro Adjustment Levers: Throwing deep 250' fly balls has never been easier. 360 degree rotation allows you to easily practice using the entire field.

L) BP®3 Softball Transport Cart—Moving your JUGS BP3 Softball Pitching Machine is easy with the transport cart—Simply insert the handle, tilt and roll.

M) Three ¼ HP motors will give you years of trouble-free use.

N) Three cast-aluminum motor guards protect motors from direct hits.

O) Cast aluminum and steel construction.

P) Throws softballs, JUGS LeatherLast™, Low Impact, Multi-Use softballs, Sting-Free® softballs, Lite-Flite® softballs, Softie® softballs and Bulldog™ polyballs.

Q) Runs on 110-volt AC or Bluetti AC70 Portable Power Station.

Pinpoint™ Micro Adjustment at your fingertips

The most advanced and easy to use pitch targeting system ever developed (patent pending.) Locate pitches instantly—right to left, up or down with a quick turn of your wrist.

The easy answer to all your practice needs

" We have really good pitchers in our conference that change speeds and locations really well, and we use the mini3 to prepare for pitchers. So if we have a pitcher that's high velocity and they throw a good rise ball and a drop ball, we'll spend our time that week preparing for that game by going to this machine."

Matt Lisle —

• D-1 Hitting Coach

Balance and vision are key to hitting.

Always-See-The-Ball™ delivery system— the black "hitter's eye" ball chute gives your hitters an unobstructed view from machine to hitting zone.

Why JUGS mini3™?

- Pinpoint accuracy and control.
- 30-70 mph speed range.
- At just 95 lbs. the mini3™ is designed for the coach or player on the go—

Carousel Feeder

Custom Netting: All applications, all sizes, all the time.

JUGS Sports not only offers custom netting for baseball and softball, but for many other applications as well. Any dimension, all mesh and fiber sizes, and all strengths are available to fit your specific needs.

Twisted Knotted Black Polyethylene #27, #42 , #60 and #96 Batting Cage Netting Features and Benefits:

- Twisted Knotted Black Polyethylene Nets are hung on the square and are designed specifically for baseball and softball use.
- All JUGS nets come with a JUGS Hitter's Door for easy in-and-out access.
- Knotted nets have a higher overall strength and durability rating making them superior for direct impact sports like baseball and softball.
- Twisted netting has a higher abrasion resistance than braided, because twisted has less surface area than braided. This allows the balls to slide and spin off of the surface.
- Polyethylene netting doesn't absorb water—perfect for wet or humid hot climates—This is the best protection to prevent rotting.
- All JUGS nets are black and offer the best protection from the affects of sunlight—the darker the color, the greater the UV deflection.
- We incorporate the industries highest UV protection.
- JUGS netting is hydraulically depth-stretched to improve knot tightness and reduce stretching and shrinking over time.
- Baseball and Softball size mesh–1¾".
- Heavy-Duty Polypropylene Black Rope Borders on top, bottom, and vertical corners. Rib-Line Ropes down the center for extra suspension points with less sagging.
- **1-Year Guarantee on #42 and #60.**
- **2-Year Guarantee on #96.**
