

# Super Swirl Fan

12" - 36" Basket Circulation

Keep heating costs down and consistent temperature throughout the barn with continually low velocity air movement. Dependable and efficient, Arctic Whirl Low Velocity Basket Fans are designed to run specifically to reduce temperature stratification.

## FEATURES

- Generates high-velocity airflow in a target range
- Large throw area reduces amount of fans necessary
- Reduces air stagnation and airborne disease
- Powder-coated guards for corrosion resistance
- Comes with ceiling/wall mount bracket that can pivot 180° and fan can turn 180°
- Well-balanced and strong blade design for years of trouble-free service
- Pairs well with misting or fogging kits
- Great for smaller areas and non-permanent locations
- 3 Year Manufacturer's Motor Warranty
