

MAMMOTH

It's time...to think BIG

The Calf-Tel **Mammoth** is the largest calf housing unit we have ever produced

In the world of dairy farming, the future is built on the strength of our calves. At Calf-Tel, we think bigger and have designed the Mammoth with the producer and herd's success in mind.

Mammoth Space

An impressive 10 square meters in total footprint.

- 2.1 Meters tall
- 3 meters in width
- 3.5 meters in length

Mammoth Construction

- Built from high molecular weight polyethylene giving it the durability and strength of other Calf-Tel products you know.
- Built to last the Mammoth nearly indestructible.

Rear and side openings provide ventilation
for continuous airflow

Raising the Standard in Calf Housing.
For the future of your herd: Go Big. Go Mammoth

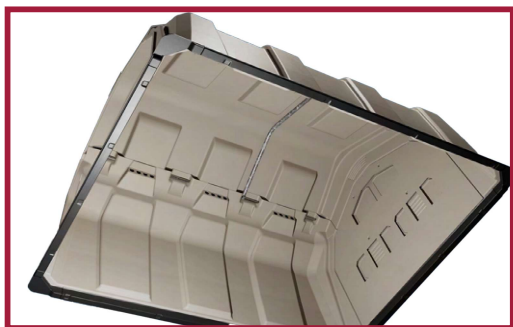

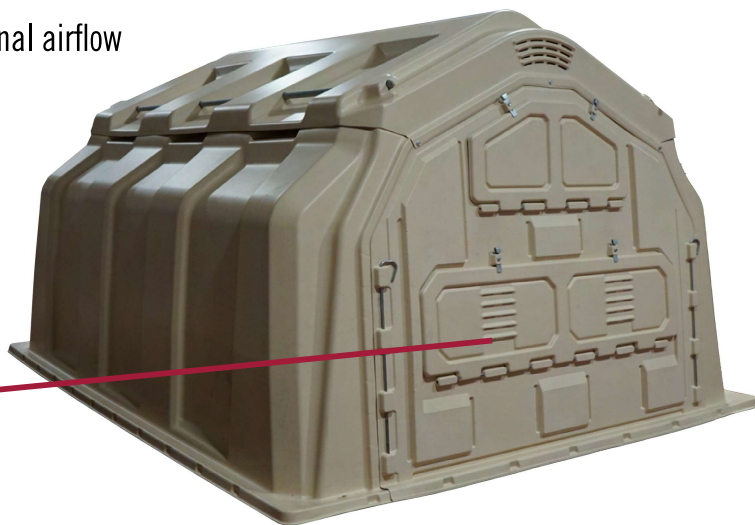

***Mammoth Space.
Mammoth Flexibility.
Mammoth Results.***

- 4 main structural components for easy assembly
- Minimal hardware required
- Streamlined ventilation ports provide additional airflow
- Additional ventilation on rear bottom doors

When closed—the bottom door is system-integrated with additional ventilation when weather is foul or temperatures drop

Improved base with beveled edge for easy transportation - No wood!

Rear openings provide multiple options for bedding techniques and automated bedding equipment.

Complete the System with the Calf-Tel Group Yard!
