

PROSERIES “JUNIOR” LED LUMINAIRES

Our ProSeries Junior is designed specifically for retrofitting and upgrading “jelly jar” fixtures for utility lighting applications. This 14-Watt LED Utility Luminaire Series provides high lumen output, maximum downward lighting, reduced energy consumption, and lowers your electrical expenses.

Upgrading your “jelly jar” light fixtures using our ProSeries Junior LED Utility Luminaire Series will lower your maintenance cost and gives you a better performing lighting system compared to outdated incandescent or compact fluorescent lamps, or an A19 LED lamp that is not intended or rated for enclosed applications.

PROSERIES JUNIOR LED UTILITY LAMP

The ProSeries Junior LED Utility Lamp (P/N 15980) is a direct replacement for incandescent or CFL lamps currently used in “jelly jar” fixtures. The LED lamp upgrades them into energy efficient and cost effective LED luminaires. It adapts quickly and easily to most competitive products in the market.

PROSERIES JUNIOR LED UTILITY LUMINAIRE UPGRADE

Our ProSeries Junior Utility Luminaire Upgrade (P/N 15981) is a direct “hard-wire” replacement for light fixture bases that have been in service longer than five (5) years. Over time, deterioration from solid and hazardous waste pollution, moisture, UV emissions, and other environmental causes can start to occur.

PROSERIES JUNIOR LED UTILITY LUMINAIRE

As a complete luminaire, our polycarbonate and lightweight ProSeries “Junior” LED Utility Luminaire (P/N 15982) is highly desirable for animal confinement or horticultural farming operations, or for expanding and modifying an existing operation.

BENEFITS

- Suitable for wet and damp locations.
- Use for applications that require wash-down.
- No glass and no lamp breakage.
- ProSeries Junior LED Utility Lamp (P/N 15980) requires no rewiring; Includes E26 socket connector for direct, fast, and easy installation.
- Low energy consumption: Save 90% vs. incandescent lamps and 55% vs. CFLs.
- Integral heat sink prevents dust and insect accumulation.
- Return on investment in 12 months or less.

FEATURES

- Polycarbonate, lightweight construction will not rust or corrode.
- Uniformly distributes a 120° spread of glare-free lumen diffused light.
- Instant start, no flickering.
- Mercury free; no UV emissions, protects the environment.
- LED Engine provides consistent lumen output over changing voltage conditions.
- Includes luminaire disconnect for safe servicing without exposure to electrical shock.

PRODUCT DATA SHEET

SPECIFICATIONS

- Voltage Range: 120 - 277V via Built-in Constant Current Driver
- Lumen Output: 1440 Lumens @ 103 Lumens per Watt
- Correlated Color Temperature: 5000K
- Color Rendering Index: >82
- Dimmable: Non-Dimmable Circuitry
- Operating Temperature: -4°F to 113°F (-20°C to 45°C)
- Surge Protection: Built-in Protection up to 2,500 Volts
- Certifications: ETL and Energy Star Certified
- Warranty Protection: 5 Years at L₇₀

P/N 15980: Includes 14-Watt LED Lamp with Internal Heat Sink and E26 socket adapter

P/N 15981: Includes 14-Watt LED Luminaire Upgrade with Internal Heat Sink, Silicone Gasket, and Junction Box Adapter

P/N 15982: Includes 14-Watt LED Luminaire with Internal Heat Sink and 18 Cubic Inch Junction Box
