Cattle Products

High Wind Roof Cattle Feeders

Steer Stuffer with High Wind Roof

New to the Steer Stuffer family is our High Wind Roof Option. Designed for high-wind environments, It helps reduce the risk of roof loss caused by unlatched or open roofs while providing convenient center access for auger filling.

Features and Benefits

- ✓ **Constructed with Medex** strong, dense, moisture-resistant wood that withstands wear and tear from cattle.
- ✓ **White Oak Base** strong and durable wood that is naturally resistant to pests, rot and decay.
- ✓ **2 Coats of Non-Toxic Paint** acts as a barrier to prevent rotting & warping due to rain, snow, or humidity.
- ✓ **Wide Overhang on Roof** helps to keep the feed dry, reduce spoilage.
- ✓ **Waste-Proof Design** minimizes spillage and ensures feed is consumed by the cattle, resulting in lower feed costs.
- ✓ **Large Capacity Feeder** enables bulk feeding which reduces frequent refilling.
- ✓ **Agitator** prevents bridging and clumping, ensures consistent feed availability, handles various feed types to best suit cattle.
- ✓ **Confinement Package** galvanized metal wrapping keeps cattle from chewing the wood.
- ✓ **Stainless Steel** bottom trough extends life.
