

Touch Free Foam Soap Dispenser

Code 717: Foam soap dispenser, touch free, bulk fill.

Overall dimensions in inches, (centimeters in brackets).

Specifications

Site Location:

- Ideal for high traffic areas and multiple mirror mounting. Foam soaps reduce consumption and improve washing effectiveness.

Dispensing:

- Soap is dispensed when hand is placed within 2-1/4" (6cm) under the unit.
- Foam quantity dispensed: 0.7-0.8 cc
- Soap container capacity: 800 cc, (29.5 ounces)
- Unit is powered by 4 "AA" alkaline batteries (not included).
- Battery life is 20,000 cycles, or one year. Low battery indicator: flashes blue.

Shipping Weight:

- 1.25 kg, 2.75 lbs., (Bulk packed 12 units per case)

Installation:

For unrestricted access, bottom of unit to floor should not exceed 44" (111.7). Insure unit is mounted 20 cm above any horizontal surface (30 cm for stainless steel). Prior to mounting using self adhesive: clean glass surface, mark clearly with removable marker or masking tape the exact location and plumb line for unit. The foam tape backing on the dispenser does not allow for repositioning if it is mounted crooked or askew. Allow tape to set ten hours prior to filling dispenser with soap and loading batteries.
