

# Nursing Bench 1000

The 1000 series is a range of quality nursing benches with PVC coated canvas stretchers, suitable for a wide range of applications in public or private places.

Carers can easily set the height of the bench, enabling them to obtain the correct working position. This ensures safe showering and changing for the user as well as minimizing the risk of back injury for the carer.

The integrated gas cylinders enable the bench to be folded out of the way when not in use to maximise floor space in front of the unit.

Electric with wired hand control – the red buttons clearly indicate “Up” and “Down”. The wired hand control comes with a holder for fitting to the wall.

Splash curtain for the nursing bench protects the carer against splashing.

<b>R8420</b>	1400 mm
<b>R8421</b>	1800 mm

**Materials:** Powder-lacquered stainless steel, PVC-coated canvas (phthalate free)  
**Maximum weight:** 150 kg
