HIGHLINE SLIDE OUT GLAMPING STORAGE

The Overland Vehicle Systems CP Duty Highline Slide Out Glamping Storage System is designed with ease-of-use in mind. The system has an integrated sliding tray that extends out of your vehicle's interior, allowing you to access all your essentials without having to dig around or disrupt the other items stored inside. This storage solution also comes with adjustable shelves and customizable inserts that allow you to perfectly organize your camping supplies, depending on the size of your gear and items. Additionally, this glamping storage system is constructed from heavy duty materials for maximum durability and longevity, so you can take it with you on any adventure without fear of wear or tear.
