

2-WAY
AND
4-WAY

QUICK FLATE SYSTEM

The Quick Flate Inflation/Deflation 2-Way and 4-Way System offers a versatile solution for maintaining optimal tire pressure in any environment, with both 2-way and 4-way kit options. Featuring quick-connect fittings and universal tire accommodation, it's designed for effortless use and real-time monitoring, allowing you to inflate or deflate tires with precision. Whether you're on the road or off-roading, this durable and portable system ensures better fuel efficiency, traction, and tire longevity, making it an essential tool on the go.
