8" RECOVERY DISTRIBUTION LINK

Overland Vehicle Systems is the leader in Off Road Recovery, Overland Equipment and Camping Gear. Our Recovery Distribution Link is a rigging tool designed for winching yourself out safely by increasing anchor points and helping to aid a balance load in extreme recovery situations. Our Recovery Distribution Link has 4 rigging points to secure with standard steel shackles or soft shackles. This platform will help aid in the recovery of your rig and provide additional anchor points to help improve the outcome of your recovery. The Overland Vehicle Systems R.D.L. 8" Recovery Distribution Link is the perfect tool for multiple recovery point options and bad vehicle position recoveries. With a 45,000 lb. breaking strength and a working load limit of 11,250 lbs., this recovery tool is built to last.
