RECOVERY BOARDS

Overland Vehicle Systems is your go-to for all your off-roading needs. Our Recovery Ramps are your first line of defense when you're out on the trail! For us, it's all in the production, created with a durable nylon mixture that goes thru an injection process, that when cooled, can have the ramp take a load up to 10,000lbs. Each is easily formatted for optimal traction; our state-of-the-art designed spikes will help you get out of any situation. They also come with a water-resistant storage bag and nylon straps for easy transportation. These are the best on the market and up for any mud, snow, or sand-covered trail!
