

IMPROVED COVERAGE RAINFLY

NEW DOUBLE INSULATED BLACK DIAMOND PLATE BASE

STANDARD NOMADIC TENT

The latest generation of the Nomadic Series roof top tents include new features designed for the serious adventurer. The new line up still boasts our class leading construction and features yet takes it to the next level. New features include a double insulated black diamond plate base, improved weather protection with its extended rain fly and upgraded new high density foam mattress with premium cover. The new features further add to the value, quick deployment, comfort and durability of the Nomadic Series line of roof top tents.
